Territory east of  
And adjacent to  
Lake Washington

EVERY RESIDENT OF KING COUNTY FROM LAKE WASHINGTON TO THE CASCADES SHOULD SUBSCRIBE FOR THE EAST SIDE NEWS

VOL. VII

KIRKLAND, KING COUNTY, WASHINGTON, THURSDAY, JUNE 20, 1912.

NO. 28

## GOOD TIME FOR EVERYBODY

### CONTRIBUTORS

The booming of thirteen guns on the shores of Eastern Lake Washington on the morning of July 4th, 1912, will mark the beginning of a day long to be remembered in the history of Kirkland. Unless all signs fail and the efforts of energetic citizens amount to naught, the day will be one to be enjoyed by all who love the

Stars and Stripes and cherish a memory of that eventful time which gave birth to the great American nation. Nothing is being left undone to provide for the convenience and comfort of old and young, rich and poor, strong and weak, alike. Overlooking Lake Washington, on a gentle slope, covered with a mantle of green and shaded with the dense foliage of the fir trees is being prepared by the vol-

unteer labor of the men, women and children of Kirkland, a most ideal and picturesque picnic ground. Here spring water will be piped onto the grounds for the benefit of the thirsty. Free coffee and cream will be supplied those bringing their lunch. Comfort stations are under construction; rest rooms are being arranged for mothers and children. The members of the Grand Army of the Republic in Kirk-

land are looking after quarters for visiting comrades who may become tired and weary during the day. For the pleasure of young America, suitable grounds will be set apart where the little folks may shoot fire crackers to their hearts' content. The literary program will be such as grandpa used to enjoy. The oration will be delivered by a plain man to a common people upon a patriotic subject. The choir will consist of all persons par-

ticipating in the celebration, lead by a hundred voices in national airs. After the parade and literary program, the remainder of the day will be devoted to land and water sports such as were most common during the good old days of yore. All in all, the celebration in Kirkland will be in commemoration of those fifty heroes who, in the old State House at Philadelphia, July 4th, 1776, proclaimed to the world American Independence.

Post-Intelligencer, One year's subscription.  
Star, one year's subscription.  
Times, one year's subscription.  
Wallen & Nordstrom, pair shoes.  
MacDougall-Southwick Co., five dollars in merchandise.  
M. A. Gottstein Furniture Co., sewing rocker.  
Seattle Woolen Co., sweater coat, value \$8.00.  
Standard Furniture Co., jardiner stand.  
Nettleton & Kinney, chair.  
Stewart & Holmes, safety razor, also box cigars.  
H. N. Richmond Paper Co., two boxes Potlatch paper.  
Schwabacher Bros., Gold Shield steel cut coffee.  
Pacific Coast Condensing Co., Carnation Cream.

W. B. Hutchinson Co., order for one cap.  
Rhodes Company, one pillow top.  
Piper & Taft, one pair canoe paddles, to be monogrammed in gold leaf with initials of winner.  
Whiton Hardware Co., one fishing rod.  
The prizes of these firms will be kept on display at the Kirkland Drug Store.

### AUTO PARADE

Dr. Davis Making Good Showing.

Dr. Geo. H. Davis, since being placed on the parade committee, has been doing some good work. So far he has been able to see but twenty-one auto owners and each have signified a willingness to participate. The doctor feels confident that every person owning a machine will decorate and be in the parade. Mr. Davis wishes it understood that he desires every machine on the east side of the lake to be decorated and take part. Owing to rush business, it may be impossible for the doctor to see all owners of machines personally and he therefore wishes it understood that the invitation to participate is general. A prize will be offered for the best decorated car. The following persons were seen and readily consented to decorate their autos: James Collins, C. W. Parrish, Jim Robinson, W. L. Wester, Burke & Farrar, E. A. Brooks, M. Lutes, H. Martin, Dr. Moffitt, Redmond Trading Co., Brown Bros., A. B. Newell, Harry Graves, Mr. Pearson, Capt. Harry Cade, Mr. Lamore, besides the car of the doctor. Mr. Davis is also devoting much attention to the auto race to be run on Market street. He took the question

with the town council and was im- of properly preparing the street up immediately offered all necessary aid. At first it was the intention of the doctor to have the machines run against time. Taking a standing start near the Kirkland bank and running up market street a distance of about one half mile. Since the town officials have signified a willingness to put the street in good condition for racing, the doctor feels that he will be able to run two machines at a time. The doctor and the automobile people are certainly deserving much credit for the interest being taken in the parade and auto race.

### BASE BALL

As was generally expected, the game between Redmond and Kirkland on the afternoon of June 16th, was a warm one but made good by the sun. A large delegation of Kirkland fans was present and witnessed a good game. However, much to the surprise of everybody, the game proved quite one-sided, the Kirkland boys winning by a score of 12 to 2. The game was perfectly orderly and fought out, to the credit of both teams, in a sportsman-like manner.

## PROGRAM

### Fun by the Barrel

Ball Game.  
100-yd. Dash—trials. First two in each heat will qualify for finals.

Best decorated Auto in parade, prize, Auto Hill-Climbing Contest, prize, Supper Bell.

### DO YOU KNOW

Mr. Farrar of the firm of Burke & Farrar Co., expects to be in the tug race at Kirkland July 4th.

Wm. Terry and Charles Younger.

Mr. William Terry and Charles Younger, representing respectively the land and naval forces of Puget Sound, have consented to fight two rounds on the glorious 4th. It is understood that the ring is to be 75 feet in diameter and that each contestant shall wear not less than 50-ounce boxing gloves and keep, at all times, during the bout, a distance of at least ten feet from his opponent.

Herman C. Schultz Will Sack the Swine

Herman C. Schultz openly declares that no swine is swift enough and no grease slick enough to keep him from putting the swine in the pork on July 4th. It is generally understood that our banker loves his chops.

### GREASED POLE AND PIE-EATING CONTEST

According to the story circulated by Capt. Harry Cade and E. A. Brooks, in these events, all is over but the shouting. Cade says while he is convinced that the pole will be hard to climb, he anticipates no trouble coming down. Brooks will enter the pie-eating contest with the determination of winning at any cost. He will have at his side two able doctors and an undertaker, so as to be prepared for any and all emergencies.

### SAFE AND SANE CELEBRATION.

Every Precaution Will Be Used to Avoid Accident  
While the celebration is to be an old fashioned one, every precaution will be used to avoid accident. Grounds will be set apart for the use of the young boys and all others who may desire to shoot fire crackers. It is the intention of the executive committee to have perfect order and an enjoyable time for every one. At least twelve special police will be in evidence at all times to see that all orders for a sane and safe celebration are enforced.

### MONEY, MONEY, MONEY!

The executive committee is sorely in need of more money for the 4th of July celebration. It will require at least \$50 for the grounds, \$75 for decorating, \$30 for advertising, \$50 for parade, \$100 for fireworks, \$100 for sports, music and the like. The finance committee has secured about \$175. Remember this celebration belongs to the town. Are you doing your part?

Kirkland, June....., 1912.  
Mr. Glen M. Johnson.  
Kirkland State Bank:  
As a patriotic citizen of the town, I am sending you \$..... to assist in defraying the expenses of the 4th of July celebration.  
Yours, for a glorious fourth,

### CONCESSIONS FOR THE FOURTH.

The concession man, Herman C. Schultz, is being kept busy answering questions and locating people desiring to have stands on the picnic grounds July 4th. The executive committee has placed the matter of concessions in the hands of Mr. Schultz and requests all persons desiring to stand on the grounds to see him at the Kirkland State Bank at the earliest possible moment.

## MRS. RADA UPHUS HONORED

The grand chapter of Washington Order of Eastern Star closed their session by the installation of the following officers recently: Mrs. Blanche McCroskey, of Garfield, grand matron; D. L. Demorest of Tacoma, grand patron; Mrs. Mabel Gundlach, Spokane, grand associate matron; W. W. Peabody, Blaine, grand associate patron; Mrs. Libbie J. Demorest, Tacoma, grand secretary; Mrs. Rada Uphus, Kirkland, grand treasurer; Mrs. Louisa C. House, Port Townsend, grand conductress, and Mrs. G. Park, North Yakima, grand associate conductress.

NOTICE  
Strayed to my place in north Kirkland one Jersey heifer with fine calf. The cow and calf are now being cared for by Mrs. Matsek.  
Mrs. Mary Bomey

## MORE WARM WEATHER Namesake of "Virgin Queen" Enters Race

We are pleased to announce the arrival of another live wire(ess) upon the field of action. Elizabeth Elliott, a maid of the back woods, has declared her intention of getting into the race with both feet and staying there until she has "put it over" the city girls. Being city-bred herself we are desirous of seeing some city girl or boy win the scholarships, but we are in duty bound to keep hands off. If Elizabeth has all the physical attractions attributed to Maude Muller, we would surely urge those candidates already started to hustle up or they will be hard put. If she works as hard this coming week as she did last, we may look for a conspicuous change in the lineup next issue.

Read these rules carefully.

The following are the rules of the contest:

This contest is open to anyone, without reference to sex, age, race, or complexion, whose home is in that section of King county lying east of Lake Washington.  
Each contestant shall be known as a candidate. Anyone may nominate himself or herself or anyone else as a candidate.  
Each dollar sent in as one year's subscription to the News shall constitute ten votes for the candidate sending it in; or it shall be credited to the score of the candidate named by the person sending in the subscription. Each dollar collected on a renewal or for a delinquent subscription shall count ten votes the same as a new

subscription. You may solicit subscriptions for yourself or anyone you wish.

No commission is to be deducted from any subscription. This office shall not be responsible for any subscription money not received at this office.

Each active contestant shall send in his or her list of subscriptions at least once a week.

The prizes to be awarded are two scholarships in the Acme Business College of Seattle. The two candidates receiving the highest number of votes shall each receive a scholarship, provided that the winning candidate is not a past or present student of the Acme Business College. Each scholarship is good for a six months' course in any branch named in the College's advertisement found elsewhere in this issue. Each scholarship is transferable and the holder may enter school at his or her convenience.  
From time to time we shall publish the standing of the candidates.  
The contest closes on July 18.  
Address all communications to the Contest Editor, East Side News, Kirkland, Wash.

## COMMERCIAL CLUB

The East Side Commercial Club met in Campbell's hall, Kirkland, last Saturday evening. Aneant the resolutions received from the Highland Improvement Club concerning the petition asking the county commissioners to take steps looking toward the building of a duplicate ferry for the Kirkland run, R. H. Collins, reporting for the committee on county affairs, stated that that committee considered that such action would be worse than useless before the present board of commissioners.

A. J. Uphus reported that the deficit in the Kirkland depot fund would be borne by Burke & Farrar, and recommended that they be commended for their generous action in the matter. In his report concerning the matter of the Urania landing at the ferry wharf, Secretary Drensen declared his inability to get any satisfactory action or explanation from the board of county commissioners. W. L. Wester of the Burke & Farrar company, arguing that the landing of the Anderson Steamboat Co. boats at the ferry wharf was an improvement in the transportation service, heroically attempted to have further action on the matter dropped, but his arguments failed to carry weight, and the club voted to push the case and look into the legal phases of the question.

### REPORT ON CANAL

During the fore part of this week R. H. Collins, appointed by the chairman of the East Side Commercial Club, and a committee from Renton, held a conference with Major Cavanaugh concerning the proposed depth of the canal, it having been reported that from Lake Union to salt water the canal would be thirty-five feet deep, while from Lake Union to Lake Washington it would be but twenty-five feet. Major Cavanaugh explained that it was not yet settled whether or not the government would dredge the canal from the locks to salt water. If the government did not then the balance of the appropriation would be required for the work, but if it did complete the canal to deep water, the balance might be used to deepen the canal between Lakes Union and Washington.

Next Wednesday, June 26th, the Congregational Ladies' Aid Society will hold its last meeting before the summer vacation. The meeting will be held in the church parlor, and an effort will be made to dispose of the balance of the Larkins' goods. A social cup of tea will be served to all comers. Let every member be present and bring some friend with them.

## Burglary Insurance

The best burglary insurance policy ever written is a checking account with a bank; saves carrying a lot of money around with you and yet you have it any minute you want it. If all persons carried checking accounts and wore a check-book in their inside pockets, the hold-up guys would go out of business.

## KIRKLAND

Captain Harry Cade is being beached night and day by his fellow townsmen to run for the office of county commissioner. Harry has many warm friends throughout the county who are anxious for him to enter the race.

Mrs. Mary Bomey, for five years a resident of Kirkland, has taken her departure from the city to be gone for a considerable length of time.

Mr. G. M. Graves has a brown leg-horn pullet hatched on the 12th of February, which laid her first egg on the 12th of June following, this year. This is a remarkable showing in view of the fact that four and one-half months is a record time.

In view of the fact that not more than one-half of the work has been done on the 4th of July picnic grounds, it is absolutely necessary that the citizens get busy. The committee has not the money to hire the work done and must depend upon volunteer labor. Mr. Terpening will have charge of the grounds and would be pleased to have volunteer labor during any day of the week.

The executive committee finds that it has not secured sufficient funds to properly prepare for the celebration. The finance committee is working hard but cannot personally visit all the citizens. Any one willing to assist financially may do so by leaving their contribution at the Kirkland State Bank. Do not wait to be asked.

Five Seattle parties, Chas. Johnson, John Carney, C. E. Berrill, W. W. Restine, and O. C. Blake have annexed Kirkland property during the past week. H. Berg of Preston, is also a recent purchaser.

Where is the best place to buy paint? Kirkland Hardware Co.

Two weeks ago last Tuesday Mr. C. E. Newberry and eleven of Kirkland's boy scouts went to Whidby Island for an outing, returning last Friday. They spent the time fishing, swimming and having a general good time. They also visited the fort on the island, where they were given the freedom of the grounds.

L. Y. Williams, of Kent, will address the East Side Commercial Club, July 6th, on the coming King County Fair and would like to have a good turn out of women and school children, as well as the men folks.

Anyone having live stock of any kind to put on exhibit at the coming King County Fair will please notify C. R. Campbell, Bellevue, Wash., right away.

A Swedish meeting will be held in the Rose Hill schoolhouse Sunday Scandinavians are cordially invited.

**FOR RENT**—One 4-room modern cottage; good location. Inquire of Mrs. J. G. Smith, North Kirkland.

**FOR SALE**—One 1300-pound horse 8 Jersey Duroc pigs, six weeks old, and one registered Jersey Duroc boer. Prices right. A. T. Churchill, Bellevue, Wash.

## AVONDALE

Mr. R. Lahale and children went over to Port Crescent last week where he intends to work for some time and may possibly locate there. Mrs. Lahale has been there for some time, with her mother, Mrs. A. J. Felch, who was quite seriously ill, but is now reported as being on the way to recovery.

Mr. R. Weldon has recently contracted to purchase the old Wm. England ranch at present owned by Hemrich Bros. The place consists of about six acres, the purchase price being \$1200. Mr. Weldon had expected to close the deal before this, but a bank draft from Ireland went down with the Titanic, necessitating considerable correspondence to get the draft renewed.

The Children's Day service by the Sunday School was entirely successful. The beautiful day after a week's rain, brought out a large crowd. The program by the children was well rendered, after which all adjourned to the grove near the creek where they partook of a picnic dinner, and remained a few hours for a social time.

Several people visited relatives and friends in Avondale over Sunday and also attended the Children's Day service. They were: Mr. and Mrs. Fair and children of Seattle, at the home of M. P. Brown; Miss Hannah Scholen and brother, Edward, of Seattle, at the home of J. G. Ekdahl; Mr. Robert McClelland with Jack Brown.

Hilda and Stella Rosford gave a party at their home last Wednesday evening to a number of the boys and girls in the neighborhood.

Mr. R. G. Campbell has had a 30-foot well dug on his ranch during the past week. A good flow of fine water was found at that depth. Mr. Nelson of Kirkland, had charge of the work. The Ladies Aid will meet at the home of Mrs. Ekdahl on Thursday, June 27th.

### PROBATE NOTICE

IN THE SUPERIOR COURT OF THE State of Washington, for the County of King.

In the Matter of the Guardianship of Irving Ralph Dounergard, now Ralph Leroy Krumm, a minor, No. 14224. Notice of Application for Appointment of Guardian.

Notice is hereby given that Hans Dounergard has filed in the Superior Court of the State of Washington, for the County of King, a petition praying that a Guardian of the estate of Irving Ralph Dounergard, now Ralph Leroy Krumm, now residing at Vale, Malheur County, Oregon, and who has estate in King County, Washington, be appointed, and that Letters of Guardianship be issued to him, Hans Dounergard, and that Monday the 8th day of July, 1912, at 9:30 o'clock A. M., of said day, at the court room of the Probate Department of said Superior Court, and the Seal of said Court hereunto affixed this 25th day of May, 1912.

D. K. SICKELS, Clerk.  
By C. C. BURTIS, Deputy Clerk.  
First publication June 2, 1912-7-4.

### Sunday Elections.

In several European centers, including France and Belgium, elections are always held on Sunday.

### Ancient Sachets.

Egyptian ladies carried little pouches of odoriferous gums similar to those still fashionable in China.

### NOTICE.

Notice is hereby given that on the 17th day of June, 1912, at the hour of eight o'clock P. M. in the town hall of the Town of Kirkland, a hearing will be had on the assessment roll heretofore filed for Local Improvement District No. 21. All persons desiring to object thereto shall make such objections in writing and file the same with the clerk at or prior to the said 17th day of June, 1912. At the said time and place the said council will sit as a board of equalization and at such hearing will consider any and all objections made thereto, or any part thereof, and will correct, revise, raise, lower, change or modify such roll or any part thereof or set aside such roll and order that such assessment be made de novo, as to such body shall appear just and equitable.

Done by order of Town Council, this 20th day of May, 1912.

J. S. COURTRIGHT, Clerk.

### Plant That Feigns Death.

In South America there is a plant, a species of mimosa, which resorts to death feigning, evidently for the purpose of preventing grass eating animals from eating it. In its natural state this plant has a vivid green hue, but directly it is touched by a human finger or by any living animal it collapses into a tangle of apparently dead and withered stems. Among British wild plants the most sensitive to touch is the insectivorous sundew of English bogs.—London Globe.

## Stomach Pains

and indigestion caused me great distress for two years. I tried many things for relief, but got little help, till at last I found it in the best pills or medicine I ever tried.

**DR. KING'S  
New Life Pills**

C. E. Hatfield, Guyan, W. Va.  
25 CENTS PER BOTTLE AT ALL DRUGGISTS.

**The Habit of Acquisition.**  
"It beats me," said the philosopher "that people will keep piling up money long after they have several times as much as they'll ever be able to use."

Then he went out for a walk. Passing a bookstore, he saw half a dozen very cheap books, which, however, he knew he hadn't time to read and doubted very much if he ever would have time to read. But they were cheap, and he bought them and sent them home to be added to his library, which already contained several times as many books as he would ever have time to read.

Nevertheless he continued to wonder at the senseless accumulation of money.—New York Times.

**FOR SALE**—Standing grass at Duncan Place, South Kirkland. Make offer.

### Old Fashion Rice Pudding.

One quart of milk, two tablespoonfuls of rice, four tablespoonfuls of sugar, one-half teaspoonful of salt, one-quarter teaspoonful of grated nutmeg will be needed for this recipe. Wash rice through several waters, add the milk and salt, put into a slow oven, stir quite often. When it begins to thicken add the sugar and stir under once more, return to the open and brown.

### Violet Vinegar.

Violet vinegar is excellent for nervous people or severe headache. Take three handfuls of very fragrant blue violets, the stems cut off; put these in a quart bottle and fill with a good wine vinegar. Cork and set in sun or near the stove for about twelve to fourteen days. Dose—one teaspoonful in a glass of water. Sugar may be added to taste.

### Trouble With Her Head.

"How's your wife?"  
"She's having constant trouble with her head."  
"Can't the doctor help her?"  
"No, nobody but the milliner."—London Tit-Bits.

### Gets Harder and Harder.

"The average man," says one of the philosophers, "is generally busy making a living."

It is a curious fact that practice hardly ever seems to make it any easier.—Chicago Record-Herald.

## REFUSES SICK

**Specialist Loughney Turns Away All Who Are Incurable. This Is Their Rule**

**Flatly Refuse to Sell Their Absorbent Remedy to Any and All Whom They Cannot Benefit.**

A number of cases are being accepted for the Absorbent Remedy, but a number are being turned away; are kindly but firmly told that their cases could not be accepted. It is the iron-clad rule of Specialists Loughney & Loughney to not accept any case for their External Absorbent Remedy unless they are sure it can be benefited. These specialists want the reputation of relieving every ailment they take, so they are very careful in selling their Remedy.

Specialists Loughney & Loughney are men who have devoted the best years of their lives to the study of chronic diseases. Not only are they graduates of the very best college of healing in America, but they have spent years in the diagnosis of the particular diseases which readily respond to their External Absorbent Remedy. During these years they have seen thousands of different cases and naturally have gained a great experience. By the use of the edge and valuable instruments after diagnosis they are able to tell immediately whether the case is of a nature that they can benefit or not, without asking a single question. If the case is not one that will respond to their remedies, they will not accept it. This accounts for the fact that they make people happy and rejoice who had long since lost all hope of ever again being well.

You will do well to call on these Specialists if you are suffering from any chronic or deep-seated disease of the Nerves, Blood, Skin, Heart, Liver, Stomach or Kidneys, Loss of Nerve Force, Constipation, Catarrh, Indigestion, Dyspepsia, Weak Back, Bloating, Dropsy, Eczema, Scrofula and all kindred ailments.

**Here is the Offer to You.**  
Free consultation, free examination. Do not misunderstand this offer. You get the Specialists' services free. You pay \$5 (five dollars) cash for the complete course of External Absorbent Remedy.

To prove to you that Chronic Diseases are their life study, and that they know the human body to the most minute detail, they will undertake to diagnose any case, in a few minutes, describing every trouble, without asking the patient a single question.

All those who are sick and ailing should take advantage of this liberal offer, which is made in order to secure a few difficult cases quickly, preferably one or two in each neighborhood, to prove what their External Absorbent can do, to rich and poor alike.

The remedy is applied over the kidney and small of the back, and in each case it draws out hundreds of pus-tules to the surface filled with puss and poisons from the blood. It is indeed a wonderful blood purifier. A number of friends and neighbors who are sick and ailing are now coming to the Loughney home, or writing, when it is not possible to come, and in each case they are given this new remedy at a remarkably low price. If your case can be relieved by the External Absorbent you can secure an entire course for the small price of \$5.00, either personally or by mail.

Many who do not have the ready cash are making deals to get the remedy—some bring a couple of chickens, others potatoes or eggs. Raising chickens is the specialists' hobby, therefore laying hens, one-day-old chicks or fertile eggs are most acceptable.

All this shows that Specialist Loughney wishes to be neighborly, and if there is an ailing man or woman who cannot afford to get his remedy, let him come to the home and get it free, this, he believes, is benefiting humanity.

Specialist Loughneys Kirkland address is R. F. D. No 1, right at the South Kirkland Dock. Hours from 8 a. m. to 8 p. m.

College and such as abounds in the es-  
sentials of business penmanship, viz:  
legibility, speed and ease.*

*Respectfully yours,*

*Acme Business College*

ESTABLISHED

1892

**Acme Business College**  
Entire Third Floor P-I Building, Seattle

**It's the most de-lightful Breakfast**  
**Drink you ever tasted**  
 —and the most wholesome and invigorating. You cannot but like its rich "grainy" flavor and spicy aroma. Ask your grocer for **Three G's** (GOLDEN GRAIN GRANULES). —If he hasn't got it he will get it for you. It's good for you 3 times a day. And remember that there is no substitute for 3 G's.

**Machinery** Second-Hand Machinery bought, sold and exchanged: engines, boilers, sawmills, etc. The J. E. Martin Co., 75 1st St., Portland. Send for Stock List and prices.

**FREE GOVERNMENT LAND** Best fruit or alfalfa land in Oregon, 10, 40 or 100 acres, without money and without price, to a favored few who will share expense of getting water on same. JESSE ROBINSON, 225 Exchange Bldg., Portland.

**The Retreat From Moscow.** Napoleon's army for the invasion of Russia numbered 650,000. Only twenty thousand returned. During the retreat thousands of horses lay groaning on the route, while thousands of naked wretches were wandering like specters, who seemed to have no sight or sense, and who only kept reeling on till frost, famine or the Cossack lance put an end to their power of motion.

**Try Murine Eye Remedy for Red, Weak, Watery Eyes and Granulated Eyelids. No Smarting—Just Eye Comfort.**

**Worshiped in Ancient Days.** In the National Museum, Washington, there is a meteorite weighing 1,400 pounds. In the Yale collection is one weighing 1,635 pounds, and one at Amherst 437 pounds. Some sacred stones, as the black meteorite worshiped at Emesa, in Syria; the holy Kaaba of Mecca; and the great stone of the pyramid of Cholula, in Mexico; owe their sanctity to the belief that they had fallen from heaven.

**Black Sheep Not Wanted.** Australian wool growers have been officially warned by an English chamber of commerce not to breed from black or gray sheep; to take the greatest care in selecting rams from those as free as possible from black hairs; to slaughter all black and gray lambs.

**DAISY FLY KILLER** placed anywhere, attracts and kills all flies. Neat, clean, ornamental, convenient, cheap. Lasts all season. Made of metal, can't spill or tip over, will not soil or injure anything. Guaranteed effective. Sold by dealers or direct prepaid for \$1. HAROLD SOMERS, 150 DeKalb Ave., Brooklyn, N. Y.

**As to Buying.** Whatever we wish to buy, we ought first to consider not only if the thing be fit for us, but if the manufacture of it be a wholesome and happy one; and if, on the whole, the sum we are going to spend will do as much good spent in this way as it would if spent in any other way.—Ruskin.

## RECORD OF A GREAT MEDICINE

**Doctors Could Not Help Mrs. Templeton—Regained Health through Lydia E. Pinkham's Compound.**

Hooper, Nebraska.—"I am very glad to tell how Lydia E. Pinkham's Vegetable Compound has helped me. For five years I suffered from female troubles so I was scarcely able to do my work. I took doctors' medicines and used local treatments but was not helped. I had such awful bearing down pains and my back was so weak I could hardly walk and could not ride. I often had to sit up nights to sleep and my friends thought I could not live long. At my request my husband got me a bottle of Lydia E. Pinkham's Vegetable Compound and I commenced to take it. By the time I had taken the seventh bottle my health had returned and I began doing my washing and was a well woman. At one time for three weeks I did all the work for eighteen boarders with no signs of my old trouble returning. Many have taken your medicine after seeing what it did for me. I would not take \$1000 and be where I was. You have my permission to use my name if it will aid anyone."—Mrs. SUSIE TEMPLETON, Hooper, Nebraska.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

## Corner for the Juniors

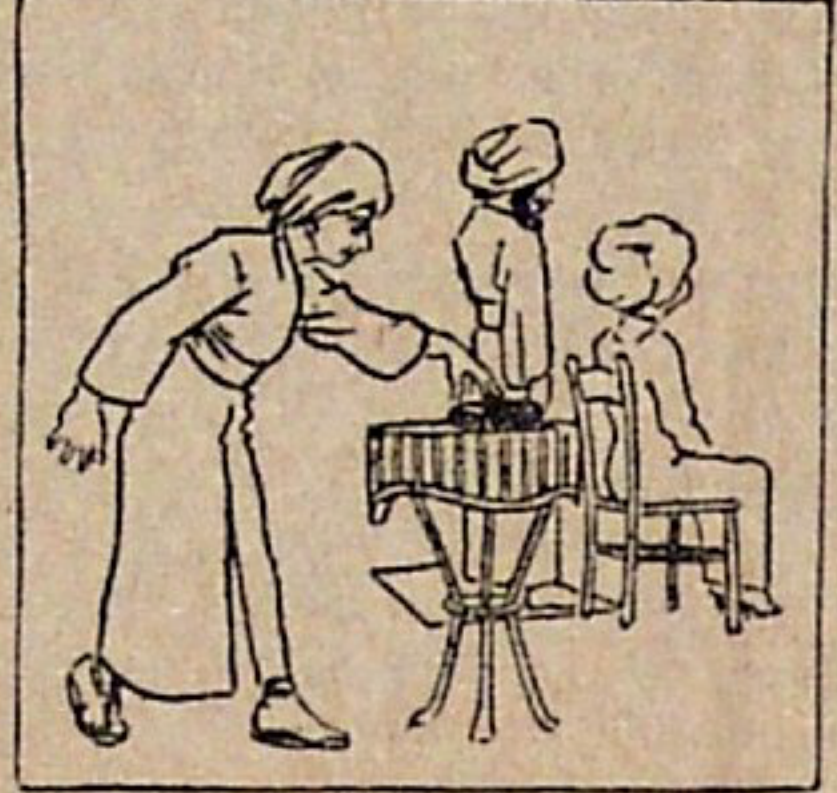

### OUTFIT OF A "MIND READER"

Electrician Tells What He Discovered in Repairing Communication With Occult World.

A Hindu mind reader found his outfit in bad shape one day and was obliged to enlist the service of a telephone man to again place him on "speaking terms" with the occult world. What the electrician found, says a contemporary, was as follows: On the floor of the room where the confiding victim handed over the "necessary" in order to know the future was an ordinary-looking rug. To the under side of the rug eighteen turns of copper wire in the form of a coil were carefully sewed, the two ends passing through the wall at the floor and into the next room. Here a few dry cells and a telephone transmitter were connected with the circuit.

The Hindu professor could never "concentrate his mind" without wearing his turban, for concealed in this was an ordinary telephone head set from which wires ran down in his clothing and connected with a coil of wire about the professor's waist and held up by his suspenders.

After money matters had been attended to the victim, in most cases a woman, was asked to write her name.

Secured the Bag.

age and questions she desired to have answered upon a slip of paper, which she deposited in a velvet bag on a near-by table, without having it read or touched by the Hindu.

An assistant, who always managed to be busy near-by, secured the bag, retired to the next room and repeated the name, age, questions, etc., into the telephone transmitter and the professor, pacing about upon the rug, received the information by induction and soon had his victim's confidence to such an extent that any answers were satisfactory. The break with the occult world was due to a poor joint in the wiring.

### NAMES OF A SPANISH ORIGIN

Many of Geographical Terms Used in Western Hemisphere Derived From That Language.

You have been reading a great deal about the Spaniards and are probably aware that many of the geographical names in the western hemisphere are derived from their language; even two-thirds, it is said, but you may be surprised to learn that many others in common use come from the same source.

We speak of "negro children" as "picaninnyes." This word is derived from Cuban "piquinine." The word "negro" is Spanish, meaning black. "Samba" comes from "zambo," meaning bow-legged. "Mulatto" and "quadroon" were originally Spanish. The name of the Spanish patron saint, "Diego" (James), gave rise to the slang term "Dago," as applied to Italians and Spaniards in this country. Pumpkin pies are no less appetizing for having been made with the assistance of a colander which comes from the Spanish "colador," and that bitter but valuable medicine, quinine, is named in honor of the countess of Chinchon, who discovered it in 1631. Cinchona is the doctor's name for this fever remedy. From the towering peaks of the Andes in South America comes the "coca" plant, one of whose products is "cocaine," a soothing drug, which renders the dentist's chair somewhat less a place of torture.

Now that peace is declared, we may drink to the Spaniards' health with "sarsaparilla" soda water. From the Indians Columbus got the word "hamaca," which we have changed into "hammock." "Grenadiers" and "hand-grenades" naturally, originated at Grenada, the old Spanish city. "Capstan" (rope-winder) the Spanish call "cabeastran." "Caravel," "flotilla," "armada" and "galleon" are well-known words of Spanish origin. To the Spaniard "mariner" is "marinero."

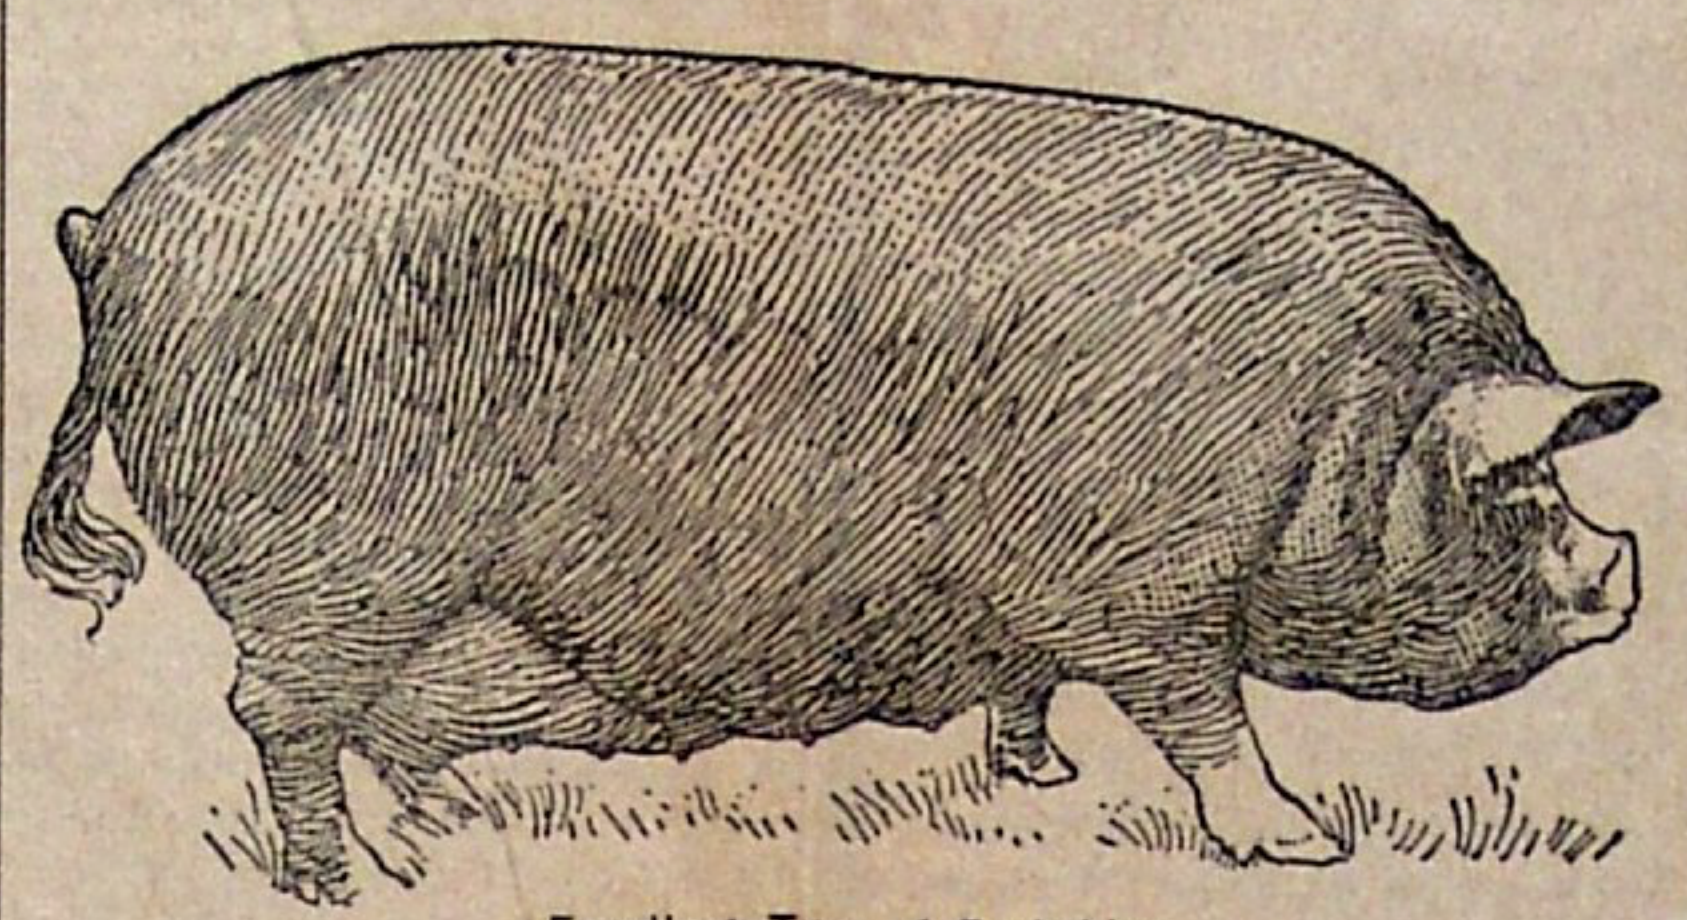

Owing to the splendid enterprise of the Spanish explorers three and four centuries ago, Spanish names are to be found all over the world. Some of the most interesting in this country are: Colorado (the red), Texas (the tiles), Nevada (the snowy), Florida (the flowery), Utah, New Mexico, Arizona and California.

**Boyhood Days.** Little Ethel—"I wonder why men always like to talk about their school days?"

Little Willie—"Oh, I guess it's because after they get grown up they want to find out where their teachers live so they can do unto them as they got done by."

## PROPER MANAGEMENT OF SOWS OF THE UTMOST IMPORTANCE

Animals in Good Physical Condition Will Care for Their Young and Raise Them in Excellent Manner—Best Food Just Before Farrowing Time Is Wheat Middlings and Bran.

Excellent Type of Berkshire.

(By L. G. JOHNSON.) Quite often I have heard the complaint of sows eating their pigs, and only a short time ago a neighbor of mine had a fine brood sow to eat her pigs immediately after farrowing. Now this is not natural for a sow to do so, and when they do there is a reason for it, if that reason is only looked for.

Sows by nature are not cannibals and if they are in good physical condition they will care for their young and raise them in the proper way.

On the other hand if she is nervous and fretful at farrowing time she is apt to eat her pigs, but when they have the run of good pasture and are properly fed and cared for they seldom eat their offspring.

If a sow is compelled to live in the barnyard, sleep in manure piles or straw stacks, and only fed a little dry corn she is apt to be feverish, constipated and have but very little milk, and in such cases she is likely to eat her pigs or lie on them and smother them before they are old enough to suck.

I have a large basement under my barn where the frost is never seen and in case the weather is very cold I give my sows a good, warm, dry pen in this basement. I don't care about the pen being over large, a pen sixteen feet square is large enough for four sows up to two weeks before farrowing, after which I place each sow in a separate pen with her pigs. I like this pen to be ten feet square with light bedding, cut straw is preferable.

The best food for a brood sow is wheat middlings, the coarser the better, or wheat bran and middlings may be mixed half and half. This should

be wet to a stiff mass with milk, house slops or water, where it is available skim milk is the best for this purpose.

Besides this she will eat and should have plenty of clover or alfalfa hay; it is surprising the amount of clover hay that a sow will eat, especially to those that have never fed the same to hogs; in addition to this I always feed my brood sows about four or five pounds of sugar beets to every hundredweight per day; I feed them whole for the purpose of giving the sow exercise in eating them, some advise the feeding of raw apples but I do not like to feed any great amount of them especially if they are sour.

One winter I kept six sows in the same pen and fed them the following rations per day: Twenty-seven pounds of sugar beets, ten pounds coarse middlings and all the clover hay they would eat, and they came out in shape that was hard to beat and raised forty-seven nice healthy pigs.

In addition to the above ration I keep a box in the pen where the sows may have free access to it at all times filled with the following: Charcoal six parts, wood ashes two parts, and two parts salt. It is needless to say that plenty of pure clear water should be given to the sows as most everyone realizes this fact.

I always handle my sows and humor their whims in order to keep them gentle as a gentle, well-satisfied sow will do better and have better success with her pigs than one that is nervous and fretful.

Brood sows should not be fed for the purpose of fattening them but only feed enough to keep them in a thrifty, strong and healthy condition.

## KANSAS COWS MAKE RECORDS

Carlotta Gave 15,773 Pounds of Milk in One Year—Fairly Good Average Yield Is 6,000 Pounds.

If a cow gives 6,000 pounds of milk a year most men are satisfied. This is a fairly good average yield. But here are some two-year-old Ayrshires that surpass that figure by a long way. Their work was described by Prof. O. E. Reed, head of the dairy department, in the annual institute. Here are the records:

Canary Belle, 10,118 pounds of milk and 437 pounds of butter, 3.7 per cent test.

Fearnot of Oakdale, 5,218 pounds of milk and 292 pounds of butter, 4.08 per cent test.

Johanna of Juneau, 7,681 pounds of milk and 335 pounds of butter, 3.72 per cent test.

Rose of Oakdale, 5,956 pounds of milk and 308 pounds of butter, 4.42 per cent test.

Any one of these cows would support a family of five persons. Such cows probably could be bought for \$175 or \$200, but not at the college. The cost of feeding the ration, and the income, may be gauged for all the group by referring to the history of Johanna of Juneau, a model family cow; Johanna ate, every day, thirty pounds of silage, ten pounds of alfalfa hay, and nine pounds of grain, consisting of four parts of corn, two parts of bran, and one part of cottonseed meal. This ration cost \$5 a month. It was fed as described only when the cow was giving the highest yield. One pound of the grain ration was allowed for every three pounds of milk, so that when Johanna gave 27 pounds of milk a day she received 9 pounds of the grain.

Johanna gave 893 gallons of milk which sold in Manhattan for 32 cents a gallon, 8 cents a quart, or \$285.76. Not a bad kind of a cow to have around. And, by the way, a gallon of milk weighs eight pounds. Professor Reed told, too, of another fine cow, a Holstein, thirteen years old—Carlotta Abbecker 52826. Carlotta's year record test was finished ten days ago. She gave 15,773 pounds of milk and 515 pounds of butter fat, equivalent to 606 pounds of commercial butter. Her feed cost \$95.50. Most cows pass their usefulness period at 6 or 9 years. This old cow of 13 years returns a profit, leaving out details, of \$75.75 net. If her milk had been sold at 7 cents a quart it would have brought \$518.50. Deducting the feed bill the owner would still have \$418. Her milk was skimmed, though, for the calves, and the cream used for butter.

## BREEDING BULLS NEED EXERCISE

Close Confinement Will Ruin Disposition of Otherwise Kind Animal—Makes the Best Sire.

(By G. M. TWITCHELL.)

I saw a good bull the other day which was being spoiled by kindness. He had not been out of his little pen for more than a year, his feet were all out of shape and naturally he was crabbed and surly. Who wouldn't be under such treatment? It is simply inhuman, but it's common. A day or two later I saw another in a well-fenced enclosure, with an overhead wire firmly attached to strong posts, set 40 feet apart at the ends of the pen, and a chain connecting the bull's nose to the wire. Here he traveled day after day, the fence too high for him to see other cattle, but with plenty of room for exercise. The good nature of the animal told of the success of humane treatment. It is not only cruelty to keep a bull closely chained day after day and year after year, but more than that, it will ruin the disposition of an otherwise kind animal. The law of environment holds here, and the bull suffering for exercise cannot be as good a breeder as his neighbor made comfortable in every way. Try it.

## STABLE MANURE QUITE VALUABLE

Most Important and Abundant Material for Soil Improvement—Much Unnecessary Waste.

Farm manure always has been and probably always will be the most important and most abundant material for soil improvement. It is a necessary product on every farm and on stock farms a product which accumulates in very large amounts. If not used for soil improvement it becomes a worthless nuisance about the stables. A conservative estimate places the annual production of farm manure in the United States at two billion tons. The actual and known agricultural value of fresh farm manure containing both the liquid and solid excrements is \$2 a ton, if the value is measured in terms of plant food or by the actual increase in crop yields produced by the use of the manure on long cultivated soils. The unnecessary waste and loss of farm manure which occurs in the United States each year is equal in value to ten times the value of all commercial fertilizers used in this country.

## W. L. DOUGLAS SHOES

W. L. Douglas makes and sells more \$3.00, \$3.50 and \$4.00 shoes than any other manufacturer in the world.  
**\$2.50 \$3.00 \$3.50 \$4.00 \$4.50 & \$5.00**  
 FOR MEN, WOMEN AND BOYS  
 W. L. Douglas \$3.00 & \$3.50 shoes are worn by millions of men, because they are the best in the world for the price.  
 W. L. Douglas \$4.00, \$4.50 & \$5.00 shoes equal Custom Bench Work costing \$6.00 to \$8.00.  
 Why does W. L. Douglas make and sell more \$3.00, \$3.50 and \$4.00 shoes than any other manufacturer in the world? BECAUSE: he stamps his name and price on the bottom and guarantees the value, which protects the wearer against high prices and inferior shoes of other makes. BECAUSE: they are the most economical and satisfactory; you can save money by wearing W. L. Douglas shoes. BECAUSE: they have no equal for style, fit and wear. DON'T TAKE A SUBSTITUTE FOR W. L. DOUGLAS SHOES.  
 If your dealer cannot supply W. L. Douglas shoes, write W. L. Douglas, Brockton, Mass., for catalog. Shoes sent everywhere delivery charges prepaid. *Past Color Figures Used.*

### A RECORD-BREAKING YEAR

Willamette Valley Chautauqua Plans for Largest Crowd in 18 Years.

"The Chicago Operatic Co.," Lou J. Beauchamp, "Rev. Wm. Spurgeon," "S. Platt Jones," "Mexican Troubadours," "Judge F. P. Sadler," "Fred Emerson Brooks," "Lee Emerson Bassett," "John Mitchell" are among the well known names noted on the program of the Willamette Valley Chautauqua to convene at Gladstone Park, Oregon City, Or., July 9 to 21, 1912. These are only a few of the features their booklet tells us about, and it looks as if the 19th year of the Chautauqua would be the best yet. Extensive improvements are being made in the beautiful Gladstone Park, the directors evidently expecting a record breaking crowd. Even the P. R. L. & P Co. has caught the spirit and is rebalancing its branch line which leads into the park and thereby facilitate and improve its half hour car service from Portland and Oregon City.

### Learn Him Something.

"Poets are born and not made," said the young man with the pale, interesting face and the long hair. "Are they?" replied his wife. "Well, I'll show you that they are made sometimes. I'll make you watch the baby while I go shopping this morning or you shall never have another dollar that my father sends to me."

Be thrifty on little things like bluing. Don't accept water for bluing. Ask for Red Cross Blue, the extra good value blue.

### Ready.

The Rev. Mr. Gude—"Isn't there some one here who will help us keep up interest in the church?" Deacon Tightwad (suddenly awakened—"I for one am prepared to raise the rates to eight per cent. on chattel mortgages if the other money lenders in the congregation will co-operate.")

Automobile Eye Insurance needed after exposure to Sun, Winds and Dust. Murine Eye Remedy freely applied Affords Reliable Relief. No Smarting—Just Eye Comfort—Try Murine.

### Br'er Fox Again.

"A fox which was hard pressed by the Essex Union Hounds entered a house in High street, Billerica, and bolted upstairs into a bedroom. When found," says Punch, "he pretended to be a wolf rehearsing 'Red Riding Hood' for a cinematograph show, but his tale was—"

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

### The World's Greatest Slave.

Aesop probably is one of the most noted slaves that ever lived. The fables and stories he told have delighted mankind for twenty-five hundred years, and there is no telling how much longer the world will continue to enjoy them. Aesop was so deformed that for a long time his Greek master could not sell him. Finally he was sold, and the master found him so wise that he was set free.

### Hard Luck Feared.

"You should lay aside something for a rainy day." "And have the roof leak and spoil it."

### To Break in New Shoes.

Always shake in Allen's Foot-Ease, a powder, cures hot, sweating, itching, swollen feet, cures corns, ingrowing nails and bunions. All druggists and shoe stores, 25c. Don't accept any substitute. Sample mailed FREE. Address Allen S. Mumford, Le Roy, N. Y.

### Some Proof.

Hunt Secretary (to inexperienced assistant, who is telling him, after run about some poultry claim)—"But how do you know they ever had the fowls? Did they show you the corpses?" Assistant—"No, not exactly; but it's all right, don't you know, they showed me the empty roosts."—Punch.

## Destroys Dandruff

Ayer's Hair Vigor keeps the scalp clean and healthy, destroys all dandruff, and greatly promotes the growth of the hair. You will certainly be pleased with it as a dressing for your hair. It keeps the hair soft and smooth and promptly checks any falling of the hair. It does not color the hair, and cannot injure the hair or scalp. Consult your doctor about these hair problems. Ask him what he thinks of Ayer's Hair Vigor.

## St. Helens Hall

Portland, Oregon  
 Resident and Day School for Girls in charge of Sisters of St. John Baptist (Religious), College, Academics and Elementary Departments. Music, Art, Elocution, Gymnastics. For catalog address THE SISTERS SUPERIOR, Office 33 St. Helens Hall.

## DR. W. M. PFUNDERS' OREGON BLOOD PURIFIER

A Tonic, Alterative and Resolvent. The best remedy for Kidneys, Liver and Bowels. Eradicates Scabies, Eruptions and Disorders of the Skin. Purifies the Blood and gives Tone, Strength and Vigor to the entire system.

### Advocates Leaves of Soap.

A chemical friend of the Scientist. American suggests that a campaign be started against the common cake of soap. About 60 years ago there was sold a form of soap for travelers, consisting of a booklet, about two inches by four inches, in which small leaves of soap paper saturated with soap were bound. Each leaf contained enough soap for one washing of the hands. It is suggested that one might profitably dispense, through a penny-in-the-slot machine, a paper towel in which is folded a sheet of soap paper, for convenient use in public lavatories.

Red Cross Hall Blue gives double value for your money, goes twice as far as any other. Ask your grocer.

### Industry Coming Into Its Own.

Guayule was for years overlooked or despised; its rubber content was considered of little or no value, and when at last acknowledged this was said to be inferior to other rubber because it did not come from the tropics. Yet in spite of all guayule has become an important source of rubber supply, millions of dollars have been invested in the industry, factories have been erected close to the guayule fields and towns have grown up for the operatives and field laborers.

### When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—No Pain—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Murine is compounded by our Oculists, a "Great Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Remedy in Aseptic Tubes, 25c and 50c. Murine Eye Remedy Co., Chicago.

### Original of Sam Weller.

The original of Sam Weller was Sam or Samuel Vale, who was well known as a London comedian who acted in the farce called "The Boarding House" and subsequently at Covent Garden theater. Sam Vale was noted everywhere for the Wellerisms, such as "Come on, as the man said to his tight boot." "I'm down on you, as the extinguisher said to the candle." "Where shall we fly, as the bullet said to the trigger." "Let everyone take care of themselves, as the donkey observed when dancing among the chickens." Sam Vale died in 1848.

### A Confession.

"Well," he said, "it is—let me see!—three years since we met crossing the ocean, isn't it? Are you married yet?" "No," she sweetly replied, "again."

## Mexican Mustang Liniment

### FOR RHEUMATISM.

Mrs. Olive Huntington, Norton, Ore., says: "I consider your Mexican Mustang Liniment the best of liniments. I have used it for different ailments and it always gave satisfactory results. It is especially good in cases of inflammatory Rheumatism and all forms of lameness."

## Painless Dentistry

Is our pride—our hobby—our study for years and now our success, and ours is the best painless work to be found anywhere, no matter how much you pay. Compare our Prices.

We finish plate and bridge work for all kinds of town patrons in one day if desired.	
Painless extractions from when plates or bridges work is ordered.	
64. Consultation free.	
Gold Crowns	\$5.00
22k Bridge Teeth	4.00
Gold Fillings	1.00
Enamel Fillings	1.00
Silver Fillings	.50
Good Rubber Plates	5.00
Best Red Rubber Plates	7.50
DR. W. A. WILE, Formerly of Kansas. Painless Extractions.	
21 Years Established in Practice.	
All work fully guaranteed for fifteen years.	

## Wise Dental Co., Inc.

## CURRENT EVENTS OF THE WEEK

### Doings of the World at Large Told in Brief.

#### General Resume of Important Events Presented in Condensed Form for Our Busy Readers.

Harry Thaw has begun his third attempt to gain release from prison.

President Taft has vetoed the army bill removing Major General Leonard A. Wood.

Mrs. Julia Clarke, of Denver, was killed in a practice flight while learning aviation.

So far as known, only three persons lost their lives in the volcanic eruption on Kadiak Island, Alaska.

A Vancouver, Wash., woman risked her life to save her son's picture from a fire which destroyed her home.

The first spring shipment of gold dust from Alaska has arrived at Seattle. It consists of \$255,000 worth.

Roland Garros, a French aviator, won the grand prize of the Angers meet, amounting to \$10,000, by flying 688 miles.

Warner E. DeLarm, once a millionaire orchard land promoter and dealer in Columbia River orchard Co. stock, died a pauper in a hospital in Placerville, Cal.

Mexican rebels three times hurled back the vanguard of General Huerta's forces, who are trying to proceed north to attack Bachimba, the headquarters of the rebels.

The S. P. company has been denied relief from the operations of the long-and-short haul clause of the Interstate Commerce act as applied to its business between Portland, Or., and San Francisco bay points.

Captain Richmond Pearson Hobson, of Spanish war fame, will run for senator from Alabama on the anti-liquor ticket.

A rancher at Montague, Siskiyou county, Cal., has a nicked tag bearing the inscription, "North Pole, July 1, 1906, Major Andree," which he claims to have found on the leg of a wild goose which he found feeding with his poultry.

New Oklahoma wheat is on its way to St. Louis mills.

The craze for the "Turkish towel" hat for women has entirely depleted the stocks of the Portland dry goods stores.

Germany is again borrowing money in the New York markets.

The Big Horn river in Wyoming is out of its banks and the Colorado Southern railroad is blocked by washouts.

A final decree has been entered in the United States Circuit court for the district of Delaware dissolving the alleged "powder trust."

More than 1000 horses and 500 men, women and children were in line in the horse and vehicle parade of the Portland Rose Festival.

#### SEATTLE MARKETS.

##### Purchasing Prices.

The following prices are offered to the producer by the local dealers for delivery in round lots, f. o. b. Seattle: Eggs—Select ranch, 20¢@21¢ per doz.

Poultry—Live hens, 11¢@13¢ per pound; old roosters, 9¢; ducks, 12¢; geese, 10¢; turkeys, fat, live, 20¢; do. dry picked, 24¢; this year's chickens, 1½ pounds and up, 20¢; under 1½ pounds, 16¢; ducklings, 15¢.

Ranch butter—16¢@20¢ per pound.

##### Jobbing Prices.

Apricots—\$1.50¢@2 per box. Apples—Eastern Washington extra fancy Winesaps, 3½ to 4-tier, \$2¢@2.50; extra fancy, 4-tier, \$2.50. Cantaloupes—\$4¢@5 per crate. Cherries—75¢@1.50 per box. Peaches—\$1.50¢@2 per box. Strawberries—Native, 75¢@1 per crate. Watermelons—3¢ per pound.

##### Meats.

Beef—Prime beef steers, 11¢@12¢ per pound; dressed cows, 10¢@11¢; heifers, Nos. 1 and 2, 9½¢@10½¢. Veal—11¢@13¢ per pound. Dressed pork—6¢@9¢ per pound. Pork—9¢@11¢ per pound. Mutton—Ewes, 9¢@10¢ per pound; wethers, 10¢@12¢; spring lamb, 18¢.

##### Vegetables.

Artichokes, 60¢@75¢ per dozen; almonds, 18¢@20¢, pound; asparagus, native, 50¢@1 per box; beans, lima, 7¢ per pound; green and wax, 8¢@10¢; beets, \$1¢@1.25 per sack; cabbage, 2¢@2½¢ per pound; carrots, \$1¢@1.25; cauliflower, \$2¢@2.50 per crate; cucumbers, 50¢@90¢ per dozen; lettuce, head, local, 35¢ per dozen; hothouse, \$1 per box; onions, California, \$1.25 per sack; Australian, 4¢ per pound; Texas, \$1.25¢@1.75 per crate; parsley, 25¢ per box; peas, 2¢@5¢ per pound; potatoes, \$20¢@30¢ per ton; California, 2½¢@3¢ per pound; sweet potatoes, 4¢@5¢ per pound; rhubarb, 2¢@3¢ per pound; tomatoes, hothouse, \$2.50 per box; Mexican, \$3¢@3.50 per box; turnips, new, \$1.25¢@1.50 per sack; walnuts, 14¢@15¢ per pound.

## LOOKS LIKE CONTEST.

Roosevelt and Taft Factions Ready for Hot Fight in Chicago.

Chicago—The Roosevelt delegates in caucus preparatory for the Republican National convention have voted that it was the sense of the meeting that nothing less than 540 uncontested delegates could be regarded as a binding majority of the Republican convention.

This was construed by the delegates present as meaning, as one of them put it, "a bolt at the go-off."

The resolution in full, which was unanimously supported by delegations from nearly every state which was carried for Roosevelt, follows:

"Resolved, That no election of temporary or other officers of this convention or resolution or other proceeding shall be taken as the act of this convention or have any effect unless it shall receive on roll call the affirmative vote of 540 delegates whose seats are uncontested, and this resolution shall govern and be in force during the temporary organization of this convention and until the permanent organization thereof shall have been effected."

The resolution was first proposed by Mathew Hale, of Massachusetts. R. R. McCormick, of Chicago, one of the Illinois delegates and a leader in the fight to nominate Roosevelt, was asked if the resolution did not forecast a certain bolt of the Roosevelt forces.

"This resolution would prevent a bolt," he said. "It was designed for that purpose, because if the 540 delegates vote on temporary organization you then have a convention and there could be no bolt."

The resolution, it was said, will be introduced in the convention immediately after the convention is called to order.

The meeting adopted the text of a long telegram to President Taft appealing to him to disavow the action of the national convention committee in its defeat of the Roosevelt contests. The telegram, after it was given out was held up to get the approval of Senator Dixon.

A resolution was adopted at the suggestion of the Illinois delegation reading as follows:

"No vote on the temporary organization or any question concerned therewith shall be valid unless it receives the affirmative vote of 540 uncontested delegates."

This would be a majority of the 1078 delegates constituting the full convention. This resolution was first adopted by the Illinois delegation by a vote of 57 to 1.

Midnight conferences completely changed the situation from what it had been earlier. Colonel Roosevelt's speech in the Auditorium theater urging his followers to fight "from the jump" and the uproarious approval given his fighting words outweighed the counsel of the more moderately inclined members of the Roosevelt faction.

## JAPANESE IMMIGRANTS SICK WITH HOOKWORM

Seattle—Thirty immigrants from the Orient, including 20 Japanese "picture brides," are held in quarantine at the United States immigration station here because they are afflicted with hookworm.

"About 50 per cent of the Japanese women entering America are victims of hookworm," said Dr. Jolivar J. Lloyd, of the United States public health and marine hospital service.

"Only 12 per cent of the male immigrants from Japan have the disease. The greater prevalence of the disease among the Japanese women than the men is because the women go barefooted while working in the rice fields, while the men have been accustomed to wearing shoes. The disease is contracted by the larvae of the hookworm entering the system through some abrasion of the skin, frequently on the feet. It has been estimated that 90 per cent of the Chinese boys who enter this country have the disease."

#### Central Ohio Storm Swept.

Columbus, O.—A rain and wind storm tornado swept the central part of Ohio, making hundreds homeless and doing damage estimated at a million dollars. At Delaware the roof of St. Mary's Catholic school was lifted and borne across the street, wrecking two cottages. In this city several houses were unroofed. Telegraph and telephone companies are the greatest sufferers. Many miles of wires are down. Plain City, 17 miles west of here, was almost demolished and several persons are injured.

#### Rebels Force Fighting.

Chihuahua—Skirmishing between the outposts of the rebels and federals at La Cruz, 50 miles south of Bachimba, the rebel stronghold, resulted in a loss to the government of 12, and the rebels two dead, according to reports received here. The rebels were commanded by General Del Toro. The significance of the action is that the rebels have determined to make General Huerta fight every inch of his way north toward Bachimba.

#### Guanajuato, Mexico, Flooded.

Guanajuato, Mex.—A cloudburst here flooded the city to a depth of several feet. The loss of life and property was large. The Porfirio Diaz drainage tunnel saved the town from greater disaster. The rainfall was greater than in 1905, when more than 200 lives were lost. The city is in a narrow gorge in which the river runs. Many American mining properties are in the surrounding hills.

## INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

### LOGGED-OFF LANDS RICH.

Immigrants Who Started With Nothing Now Well-to-Do.

Portland—"By far the most interesting and to my mind the most important feature of the development meeting at Chehalis last week," declared C. L. Smith, agriculturist for the O.-W. R. & N. company, who has just returned to Portland, "was the testimony given by seven men, each of whom had taken up logged-off land when they didn't have enough money even to make the first payment, and each of whom had acquired a competency within the last 15 years."

"Every one of these men is successful and satisfied, and not one of them has any sympathy with fellows of the I. W. W. stripe, who are too lazy to work or who haven't sense enough to use their earnings to advantage when they do work."

"A Swiss immigrant named Duperius told a particularly interesting story. When he came to Lewis county, Wash., he had less than \$200. But he had good health and energy. He cleared himself a little piece of land, and soon began to grow enough crops on the logged-off area to supply himself and his family. In a short time he was able to market some of his products. He built himself a good home, educated his children, and made enough money to make him almost independent."

"When he went there the people did not have the advantage of a church and Sunday school. So he established a Sunday school in his own home. He invited the children of his neighbors to attend. Soon he started a church and in time he and his neighbors secured enough money to build a substantial church building. He and the members of this family are happy and contented people. That is the kind of man whom I call a useful citizen."

"Then there was another man—C. J. Fuller—who had similar experiences. He was a paper mill employee back in Ohio before coming to Chehalis county. He took up a piece of logged-off land and cleared it. He soon raised big crops because the soil cannot help but produce crops. His principal difficulty was in getting his produce to market. There were no roads. He hauled his produce five miles by wheelbarrow and took it to an equal distance in a canoe to reach buyers. But he persisted and he succeeded."

"Now he has 40 acres cleared and producing. This is enough to keep him and his family comfortably. In the last five years he has become well-to-do through the cultivation and sale of strawberries, yet he devoted only three acres to this purpose."

"Five other men told similar stories. Each of these seven men declared that opportunities such as were offered them are present in the logged-off sections of Oregon and Washington today. Any man with ability and inclination to work can do likewise."

### RECLAIM AHUANUM LANDS.

Improvement Association Would Save Alkali-Laden Territory.

North Yakima—To reclaim nearly 1000 acres of alkali-laden lands in the lower Ahtanum valley by developing electric power from the Ahtanum creek, which can be used for irrigating and draining the spoiled land, members of the Ahtanum Improvement association have been discussing for several days the organization of a co-operative company.

Theodore Weisberger, who has been urging the plan, is of the opinion that 600 horsepower can be developed from the creek and that this will be all that will be necessary. After the water of the creek has been used to operate the dynamo it will be diverted from its course to the alkali area.

The association was formed nearly a year ago, but has taken no active steps until this spring. It has 105 members, owning 6500 acres, about two-thirds of the entire area affected by alkali. It is expected that nearly all land owners in the district will sign up to include their acreage in the reclamation project.

#### Verdict is Against Thresher.

Davenport—A Lincoln county jury on Saturday held C. C. Bateman, proprietor of a threshing outfit, responsible for a fire that started from his engine while separating grain at the ranch of W. S. Garner, south of Reardan, who as plaintiff in the case asked \$1350 and was awarded \$970. Bateman was alleged to have been negligent in placing the separator, which also burned, on the windward side of the straw stack and a spark set fire to it, quickly destroying it and a large quantity of threshed grain.

#### Veteran Instructor to Quit.

Pullman—Washington state college is to lose the oldest member of its faculty in point of service. Professor George H. Watt, head of the pharmacy department, has signified his intention to resign at the close of the next school year. Professor Watt will have been with the school 20 years next January and wished to quit at the expiration of the 20 years of service, but has consented to remain until the close of the school year next June.

#### Farmers to Build Flour Mill.

Asotin—The Farmers' Warehouse association held a meeting here and decided to build a large flouring mill near the warehouse, the mill to have a capacity of 100 barrels daily. A committee was appointed to solicit stock.

### CASH FOR GOOD ROADS.

Total of 1,000 Miles Favored By Washington Association.

Spokane—Ten million dollars will be expended in this state in completing three trunk lines of a total length of 1,000 miles under the direction of the Washington Good Roads association if the recommendations of its executive committee, headed by Frank W. Guilbert, are adopted by the legislature at its session next January. Following favorable legislative action upon its program the association will support a bond issue for other road improvements. The work to be undertaken in 1913 is as follows:

Sunset Highway—From the Idaho state line at the eastern terminus of the Apple Way, through Spokane, Davenport, Wilbur, Wenatchee and Shouquimie Pass to Puget Sound, 400 miles.

Inland Empire Highway—From Spokane to Rosalia, thence along the most feasible routes in Whitman, Garfield and Walla Walla counties to the city of Walla Walla, across the Columbia river at or near Pasco, North Yakima, and thence to the junction at Ellensburg with the Sunset Highway, 250 miles.

Pacific Highway—From Blaine through Bellingham, Everett, Seattle, Tacoma, Olympia, Chehalis and Kalama to Vancouver, 350 miles.

Use will be made of existing roads in the building of the three main arteries and all roads will start from trade centers or at the termini of graded roads which begin at such centers. Camps are to be established and convict labor employed on all state road work.

### FERTILIZED CROPS GROWN.

Experiments Made on Clark County Demonstration Farm.

Vancouver—Prof. H. W. Sparks, of the state school at Pullman, is here making an inspection of the demonstration farm started on the Clark County Fair grounds this season for the benefit of the farmers in the counties of Clark, Skamania and Cowlitz.

Several variety tests in fertilizers are being made. A crop is being grown to show the practical value of proper fertilization. Several strips of ground were prepared and these were fertilized. The alternate strips of ground were not fertilized. Crops grown on the sections fertilized show more rapid and larger growth. When the crop is harvested during fair week, September 9 to 15, the crops on the fertilized and unfertilized sections will be weighed separately and the results compared.

### BLIND SCHOOL IS CLOSED.

Washington Institution Will Accommodate 60 With New Buildings.

Vancouver—The state school for blind, of which Professor George Mullin is principal, is closed and 14 pupils have gone to Spokane and other points in the eastern part of the state. Twenty-four pupils, in charge of Professor Mullin, will go to Seattle, and 11 of these will go further, to their homes, for the summer. None will remain at the school during the summer vacation.

During the school year just closed, there have been 38 pupils, but the next year it is expected that there will be about 60, as there is a waiting list, which can be accommodated with the completion of the two dormitories now building, which will be ready for the opening of the school year, September 17. The furniture has been ordered for delivery August 15.

#### Husum to Have Egg Factory.

Husum—A chicken ranch, to be run on a large scale, will be established by Archibald Bailey, of Portland, on the Winchell tract, three miles up the White Salmon river. Mr. Bailey will start with 1000 chickens, and expects to have double that number by next year. This is the first large chicken ranch started in the valley, but as all kinds of fruit is successfully marketed from here, the proprietor sees no reason why hen fruit should not also prove a paying industry. Other ranchers are much interested in the result.

#### Rains Wash Gifford Fields.

Gifford—An electric and rain storm prevailed here and in the vicinity of Waterloo, about five miles northeast of here, Saturday evening. At the farm of Thomas Bradley it worked havoc and practically ruined the place, washing most of the plowed land down over the alfalfa field of his neighbor, J. N. Horton. Mr. Horton's house was flooded and every room was washed full of mud. Many culverts were swept away.

#### Heavy Rain at Walla Walla.

Walla Walla—Three-tenths of an inch of rain fell here Thursday afternoon in 14 minutes, and .40 in half an hour, the hardest shower for several years. This brings the June rainfall to .56 of an inch, the total for the year up to 10.30, which is a surplus of 1.26. The summer has shown more thunder storms than for a number of seasons.

#### Cut Alfalfa at Outlook.

Outlook—The first cutting of alfalfa is at its height and a large crop is being harvested. The weather has been ideal and a few days more of favorable weather will see the entire first crop safely in the stack in No. 1 condition.

## BILL IS THREATENED.

House Dislikes Senate Amendments to River Measure.

Washington, D. C.—The conference committee on the river and harbor bill is tightly deadlocked and after a spirited row adjourned for a week. Threats are being made by house members that the whole bill will be defeated unless the senate recedes on some of its larger amendments.

One amendment which brought about a serious disagreement was the senate's increase in the appropriation for the Cello canal from \$600,000 to \$800,000.

The house conferees are insisting that they will not stand for this increase, but senate members of the conference insist that this and all other increases are justified by the recommendations of the army engineers and that no increases have been made that were not recommended by the War department.

In regard to the Cello canal, the engineers specifically said that if they could have \$800,000 this year and a like amount of even \$1,000,000 annually thereafter, they could hasten the completion of this project and effect a substantial saving in cost. It was on this report that the senate increased its appropriation to the figure named.

Senators on the conference committee declared that they will not recede from their more important amendments and the house members threatened to defeat the entire bill rather than permit it to pass with the senate amendments attached. It is understood that none of the other Northwestern amendments is attacked by the house, Cello being the largest increase made in that section.

### POWDER TRUST DIVIDED.

Court Gives Directions How Property Shall Be Disposed of.

Wilmington, Del.—The final decree was entered in the United States Circuit court by Judges Gray, Buffington and McPherson in the government suit against E. I. Du Pont de Nemours & Co., et al., providing for the dissolution of the alleged "powder trust."

The decree directs that the following concerns be dissolved and the property distributed among their stockholders: E. I. Du Pont de Nemours & Co, 1902 Delaware; Hazard Powder company, Delaware Securities company, Delaware Investment company, Eastern Dynamite company, California Investment company, and Judson Dynamite & Powder company.

The order of the court directs the organization of two corporations, in addition to the E. I. Du Pont de Nemours Powder company 1903, which shall be capitalized according to a schedule given, or reorganized; the Lafin & Rand Powder company and the Eastern Dynamite company, or either of them, to be used instead of one or both of the two corporations, and in case the Eastern Dynamite company is selected, then it need not be dissolved.

In case the Lafin & Rand Powder company is not used, the company is directed to be dissolved and the property distributed among the stockholders.

### ARMY INTRIGUE CHARGED.

Major General Leonard Wood Alleged Victim of Plot.

Washington, D. C.—Startling charges of an intrigue against Major General Leonard Wood, chief of staff of the army, begun by the late Marcus A. Hanna and kept alive by his friends, were part of a series of sensational incidents which attended the adoption by the house of the army appropriation bill conference report.

Reference to a Western senator, whose son-in-law, Brigadier General Pershing, would be one of the first officers in line for General Wood's office if President Taft signed the bill which deposes the chief of staff, allusions to Major General Charles F. Humphrey as "the agent for the powder trust" and to Senator Du Pont's connection with the powder business furnished other incidents in a stormy afterthought.

In spite of a vain fight led by Representatives Prince, Cooper and Martin, the house adopted the report which had been approved by its conferees and accepted by the senate. If President Taft signs the bill, as it is said he will, General Wood will be removed from his office on March 4, 1913, and the future of many army posts which the War department has characterized as useless will be left to a commission.

#### Supplies to Be Dispatched.

Washington, D. C.—Secretary Stimson has ordered 30,000 army rations sent to Seward, Alaska, 24 hours distant from Kadiak. They will be distributed by revenue cutters. The cutter McCulloch, according to calculations here, should have arrived at Kadiak Saturday to assist the Manning in extending relief. The cutters Thetis and Tahoma also are steaming to the assistance of the suffering people. The revenue cutter Rush at Port Townsend, is taking on 3 months' rations and will join the relief squadron.

#### House Begins Probe.

Washington, D. C.—By unanimous vote the house has directed a subcommittee of the judiciary committee to go to Seattle, Wash., and other places to investigate charges against Judge Hanford, of the federal bench, which have arisen through his decision in the Olsson Socialist citizenship case. Chairman Clayton named the following sub-committee to go to Seattle: Representatives Graham, Illinois, chairman; Higgins, and McCoy.

## REBS MAY FIRE ACROSS BORDER

### Mexican Insurrectos Would Violate Neutrality Laws.

Leader Says Mexican Consul Is Recruiting Troops on American Side—Government Denies.

El Paso, Tex.—Mexican insurrectos would not hesitate to fire into American territory from Juarez if any troops recruited by the Mexican federal government on American territory attempted to cross the Rio Grande here. Colonel Pascual Orozco, Sr., father of the rebel chief and head of the Juarez garrison, in this way replied to the demand of Colonel Steever, commander of the department of Texas, that no rifle shots or bombs or shells must cross into the United States from Juarez at any time.

Colonel Pascual Orozco said that while he would direct his men to avoid as far as possible firing into El Paso in case of fighting, yet if any men recruited, as he alleges, in El Paso by E. C. Lorente, the Mexican consul here, composed the attacking force, he would feel justified in giving his men no instructions. The Mexican government officials deny that any force has been enlisted by them on American soil.

The arrest of General Campa, who is one of the few rebels, it is said, whose aim is to help the poorer classes, is believed to have placed General Orozco in jeopardy with his troops. Sixty picked men left Juarez for Chihuahua Sunday to form a personal bodyguard.

### CALIFORNIA IS FLOODED.

Thousands of Acres Inundated, With Great Loss.

San Bernardino, Cal.—Flood scenes are common along the treacherous Colorado River. Through a dozen or more breaks in the dykes between Old Fort Mojave and Yuma, the floodwaters are pouring over thousands of acres of alfalfa fields and truck farms. Lincolnville, the first town inundated, has been almost obliterated, and the people of Blythe and Randall are leaving their homes in boats. The entire Palo Verde valley, one of the richest in Southeastern California, is threatened by inundation and the Imperial valley, with products valued at many millions, is said to be endangered.

The high tide of the floods is not expected for two weeks and while there is said to be no immediate danger that the great river will race again into the Salton Sea, men are laboring to strengthen weak places.

### RAINS HEAVIEST KNOWN.

Northwestern Railroad is Tied Up for Long Time.

Baker, Or.—The rains, which have been the heaviest known in this part of the country, have caused much damage. In the Snake river region there have been more waterpouts than have ever been known. The Connor creek and the Fox creek bridges were washed out, and dams on the Basche and Baker ranches destroyed.

The Northwestern railroad is tied up for an indefinite time because dirt several feet deep has been washed on the tracks for several miles.

The injury to the farmers will amount to high in the thousands. The outbuildings of the Winslow and Flick ranches in the Connor creek district have been swept away and crops destroyed. Near Durkee the water has destroyed many thousands of dollars' worth of crops. The roads in the Burnt river district are almost impassable and the alfalfa has been beaten flat on the ground.

Lumbering has been abandoned in the Muddy creek district because of the roads. The crops in this and the Haines district are not advanced far enough to be damaged.

#### Kaiser Don't Appreciate Joke.

Kiel, Germany—The crown prince of Germany has run afoul of his father again. This time he did so by having a boat built which he intended to enter in the coming yacht races against his father's craft. Furthermore, he intended to command the yacht himself. But the crown prince figured without his parent. The kaiser showed himself master of the situation by exercising his parental and military authority and ordering his son to remain with his regiment at Danzig.

#### Ship Truckers Strike.

Vancouver, B. C.—A large number of industrial workers of the world invaded the wharf where the blue-funnel liner Cyclops, just arrived from Liverpool via the Orient, was unloading and induced 80 truckers to demand an increase of wages. The stevedoring company engaged other men but work was temporarily suspended. The men who went on strike have been getting 25 cents an hour.

#### Nineteen Truck Horses Burn.

Tacoma—Shortly after midnight Sunday a fire of unknown origin was discovered in the livery barn of the Tacoma Truck company, and quickly destroyed that structure, together with sheds of the Union Iron works. Nineteen truck horses were burned to death and approximately \$25,000 property damage done.
