Bob Lee

1936

MANY GIFTS GRATEFULLY ACKNOWLEDGED

Ralph Lundvall has donated twenty-one books, which his family have already enjoyed, to the library. The titles will appeal to both boys and girls.

Mrs. Watson brought two bookcases to Miss Sheridan's room, and Mrs. Ed Wold has given a beautiful large flag to this school. This was secured through the efforts of last year's 7B class. Plans are now being made to secure a flag pole.

P.T.A. MEETING

The Union High School P.T.A. is holding their second regular meeting on October 6 in the Junior High School.

The program committee has arranged an evening meeting, the main feature of which will be a reception to the teachers. The program will consist of some musical numbers and an introduction of the teachers, and a brief description of some of the new subjects in the schools this year. The new plans for the Junior and Senior High Schools will be discussed.

The speaker of the evening will be Mr. Maurice J. Thomas, deputy county superintendent of schools, whose subject will be "Trends in Education." After the formal program, refreshments will be served during the social hour when parents and teachers will have an opportunity to meet each other.

The chairman of the program committee is Mrs. R. J. Stanley, and the chairman of the refreshments is Mrs. L. Holms.

MR. AND MRS. PAIR HOSTS

Honoring new members of the faculty and their wives, and welcoming the others of the faculty, Mr. and Mrs. Paul Pair entertained with a buffet supper at their home Tuesday evening. Mrs. Pair was pleasantly surprised by the presentation of a cake honoring her birthday by her son Maurice. The faculty presented Mrs. Pair with a box of candy. The remainder of the most enjoyable evening was spent playing Monopoly and Easy Money.

"Manners carry the world for the moment; character for all time."

-----Alcott.

RENTON BAND PLAYS IN ASSEMBLY

At the Senior High School, Tuesday, at 10:45, the Renton High School band honored the students by presenting several numbers.

Bill Whitney, Senior High School student body president, turned the program over to Mr. Bennest, who welcomed the band here.

Under the direction of Mr. James, their band leader, they played various pieces; among them the "Victors March" from the University of Michigan, an overture by Otis Taylor, and "Our Family Band" a novelty number. The applause was so great after the latter, that they graciously played it over again, "So," as Mr. James said, "you can get the words." After a thunderous applause at the end of the program, they played for an encore, "On Wisconsin."

"We wish to assure you that we were very glad to be here," Mr. James stated. The thirty-six piece band is said to be one of the best in the state. Their music was greatly appreciated by students from both the Senior and Junior High Schools.

STUDENT BODY OFFICERS NOMINATED

In a few days students will have an opportunity to choose student body officers from the following list of popular candidates: President, Irma Kokko, 9A; Bob Swanson, 9B; Dick Fritts, 9C; Secretary, David Burr, 9A; Ellen Anderson, 9B; and Evelyn Paulson, 9C.

HOME ROOM OFFICERS ELECTED

The home-room officers were elected Monday, September 28, at the first meeting of the year. The officers are as follows:

- 9A- President- David Burr
Secretary- Irma Kokko
Yell Leaders- Virginia Fowler
Rebal McGuire.
- 9B- President- Alan Davies
Secretary- Hideo Yabuki
Sergeant of Arms- Chester Stuart
Cheer Leaders- Eva Lois Hough,
Lillian and Dorothy Nyquist.

OUR AIM

The aim of this year's Junior High School newspaper staff is to improve the Junior Hi-Lites so the students will get a better view of all the events which take place during the year. This includes plays, sports, home-room news, Student Council News, P.N.A. and many other activities.

The Junior Hi-Lites is not a money-making project but is published for the purpose of giving the students an inside view of all important events.

With the students cooperation we hope to make this a successful year.

Doris Becker

The students returned to the school this fall to find many new improvements had taken place. During the summer Mr. Dresden varnished floors, tables, and desks.

We are very proud of our school and hope to give visitors a good impression. The students can cooperate with the janitor by keeping the waste basket full instead of the halls or desks. Help keep the school in good condition, and please don't mark on the desks or the walls.

Students who eat outside or in the lunchroom, throw your bags and uneaten food in the garbage cans. It will be appreciated if students seeing candy wrappers lying around will pick them up and put them in the garbage can. Don't think that the teachers and the janitor have the entire responsibility.

Verna Nelson

Monday, October 4, begins the National Observance of Fire Prevention week. Many are the kinds of weeks observed in the U.S. but no other is of greater importance. Learn to observe precautions!

In each issue of the paper a brief history of each section which makes up our school district will be given. As Hunt's Point is the first alphabetically, it is featured in this issue. - Ed.

THE HISTORY OF HUNT'S POINT

Many years ago a man by the name of Mr. Hunt discovered three little points and named the main one after himself. Later Mr. Hunt lost all his money and disappeared.

The first person to live on the point was Mr. Boddy and his family, who still reside on a spot given them by the state. Many of the children at Bay School sit and listen to Mr. Boddy, now an elderly man, tell the history of the point.

When people first began to settle the point, a little transportation boat came every morning to meet the wives rowing their husbands to the middle of the bay where they got on to go to work.

Later, due to the hard work of the business-like little community, a clubhouse was erected where many happy hours were spent. In the clubhouse everytime a special day like Christmas or Halloween came there was certain to be some fun. On Christmas the women put on a big feast and they actually arranged it so Santa Claus could come down the chimney. Mr. and Mrs. Koch, now residing on Evergreen, were married in the joyful little clubhouse.

But at last a golf club was started, called the Overlake Country Club, and the little community began to drop away from the clubhouse and it was finally closed.

Last year the Overlake Country Club closed, and the friendly little community went on the rocks. Now Hunt's Point is a large place and there is not an empty house on the whole point. Perhaps the people are not as cheerful and do not work together like they used to when the Improvement Club, headed by Mr. Deac McDonald got out and built new mailboxes for the Point and it improved by their hard work, but it is now a very prosperous community.

Although the early excitement is over, many of the elderly pioneers of the Point can sit back in their chairs and drift into thought of fun once had in the clubhouse and little community.

Bob Lee

OUR TRIP TO YELLOWSTONE

After traveling four days we, (Mr. and Mrs. Petersen, daughter Marie, and Marie Scavella) at last arrived at Yellowstone National Park. We came in by way of the north entrance, or Gardiner.

The first day in the park we saw Mammoth Hotsprings and our first bear. We continued on to Norris Geyser Basin and saw many geysers erupt.

Arriving at Old Faithful in the evening we were very excited at seeing it erupt. It was a pretty sight when they turned the spotlight on.

The next night we arrived at the West Thumb of Yellowstone Lake, where the fishing was very good.

The following morning we went to Fishing Bridge and from there we went to Canyon Lodge. After seeing the Grand Canyon of Yellowstone, we watched the Bear Feeding. There were about forty-five bears there at this particular time, nearly all were grizzlies.

The next day we saw Lower Falls and the Petrified Tree. The same day we went nearly half way around the park again and left through the southern end.

We traveled on through Grand Leton National Park, on to Salt Lake City, and up to Rainier National Park, completing a most enjoyable and exciting trip.

Marie Petersen and
Marie Scavella

STUDENTS ENJOY FIRST
ASSEMBLY

A short all-school assembly was held Thursday, September 24, to give the students an opportunity to sing and to receive some announcements by Mr. Robinson about lockers and class officers.

NEW READERS AND A READING
SPEED TEST GIVEN

The seventh and eighth grades have six new sets of books, full of exciting, interesting stories.

They are fortunate in having these attractive books, and enjoy them very much.

The seventh and eighth grades had a reading speed test last week. Miss Grossell said they have a committee working on the results which will be published soon.

—AND ABOUT THE SEVENTH GRADE

The seventh grade English classes have had some very interesting discussions since the opening of school. These have been well and interestingly given reflecting praise on the various schools from which they have come. Choosing a few representative talks I might select the following:

Helen Amundsen, who gave the first one, spoke of the pineapple industry and illustrated it with pictures. Dorothy Jean Wood made us shiver with her description of army ants.

Betty Mae Gilna took us on an imaginary trip to Alaska, showing from photographs, various points of interest. She also had on exhibit a paper weight and paper cutter made of Alaskan walrus ivory.

Robert Hanson gave us an idea of a splendid summer sailing.

One of the most interesting was given by Mary Louise Irelan, who, working for a Campfire Honor, spoke on the subject of Campfire; illustrating with her gown and collar, explaining the various symbols or honors on it, headbands and mocassins.

We have had a magazine activity which consisted of bringing in old copies of magazines such as Literary Digest, Readers Digest, National Geographic, Popular Science and Scientific Monthly. These will be used for class work. Those who have gained extra grades for this are: Donald Shay, June Blau, Glen Watson, Betty Lyman, Darwin Wittenmyer, June Berry, Alfred Garthe, Billy Tremper, Dorothy Jean Wood, Billy Hellsell, Maxine Ovink, Dorothy Reese, Lorraine McCullough, Kenneth Fortescue, Betty Mae Gilna, Kiva Takeoka, John O'Neil, Patsy Putt, Allan Ford, Lorraine Salmonson, Abbie Ottoson, Bennie Young, Dwain Mason, Stanley Wange, Nicholas Vanderpool, Mildred Smith, Russell Bangert, Emory Lou Stanton.

Many of the seventh graders attended the fair at Puyallup and this trip will be used as a basis for more work.

The 7B class carries the honors for being the best "hall behaved" class in the building.

At the fair! Did you see Dick L. hanging on for dear life on the little automobile?

(cont. on page 6)

DRAMATIC CLUB NEWS

Although only two meetings of the Dramatic Club have been held, quite a bit has been accomplished, under the guidance of Mr. Hendell. At the first meeting, September 22, Irma Kokko was elected president; Paul Wright as vice-president, and Mildred Maack, secretary and treasurer.

The second meeting was held September 28 12:25. It was called to order by Irma Kokko. The minutes were read without corrections or additions. A vote for each member to bring \$5 nickel to help buy one-act plays proved unanimous. The members were then divided into groups of three, four, and five to choose from 1936 catalogs, the best one-act plays. The decisions are to be presented at the next meeting.

TEACHER VISITS SEATTLE SCHOOL

Miss Merle Throssell visited reading and drama classes at the James Monroe Junior High School in Seattle, Wednesday morning, September 25. From a conference with two of the teachers she gained much valuable information on methods and subject material used in this particular school.

Such trips are encouraged because teachers learn from one another. Last year several teachers visited in various schools in Seattle.

SOCIAL SCIENCE NEWS

Under the direction of Miss McEvoy, five eighth social science pupils have drawn interesting cartoons of Heat Waves; Our World of Today, and Politics on her blackboards. The young cartoonists are Jesse Brown, 8A; Art House, 8A; Jerry Marsh, 8B; Dick Larson, 8A; and Robert Miller, 8A.

In connection with geography, the eighth grade has prepared a Chinese exhibit in Mr. Mitchell's room. Chinese dolls, kimonos, weapons, and many other interesting articles make up the display.

It isn't necessary to fool all of the people all of the time, but merely during the campaign.

SPICED APPLE BROUGHT TO 9A SCIENCE CLASS

A spiced apple was brought to the Science class by Betty Mayer, a new 9A student. It had been prepared by Mrs. Mayer thirty years ago. She placed the cloves very close together all over the surface, which helped preserve the apple. It is very light in weight and is brown, like the color of the cloves. The apple has a spicy fragrance. The Science class thanks Betty for bringing it to the class.

CHORUS IN FULL SWING

Chorus, which includes fourteen of the ninth grade girls, is progressing rapidly. The members are: Alice Arntsen, Olive Taylor, Elaine Howland, Isabelle Kells, Virginia Fowler, Jane Foxley, Louise Green, Frances Christensen, Evelyn Eason, Dorothy Davies, Sylvia Holms, Betty Benham.

The girls hope to benefit greatly by studying under the direction of Miss Throssell.

DID YOU KNOW?

Junior High School opened this year with twenty-two more boys than girls. This is due partly to the large number of new students enrolled this year. There is a total of three hundred students in Junior High School; one-hundred sixty-one boys, and one-hundred thirty-nine girls.

"HAVE YOU HEARD"

It is reported that a certain youth in answering Miss Swatosh's call for flowers, acquired some fine dahlias. Ashamed to be seen by other boys, he hired a girl friend, at the price of one cent, to take the aforesaid flowers up to the room that morning. All would have gone well, but the hired girl double-crossed him, and out went the story.

The Kirkland Junior High Midget Football team has been invited to play at the Stadium between halves of the Oregon State game on October 17.

NOT FIT TO BE SEEN IN PUBLIC

We have all undoubtedly heard about the swarms of grasshoppers that invade the fields of the Great Plains. During one of these invasions a farmer, planning to destroy the grasshoppers, let loose a flock of his pet turkeys to eat them.

In the evening after his work, the farmer went to fetch his turkeys. He was amazed and terrified at the sight of his turkeys, for instead of the turkeys having eaten the grasshoppers, the grasshoppers had eaten all of the feathers off the turkeys. The news soon traveled, and it didn't take long before the neighbors came to see the sight. The farmer was quite embarrassed, but merely stated, "I'm sorry I have to keep them in, but they are hardly fit to be seen in public."

STUDENTS DONATE TIME
TO LIBRARY

A competent group of students keep the library books in order and deserve much praise for their cheerful sacrifice of time to this work.

Louise Green comes early each morning to open the library. During the day the following check out books: Dorothy Nyquist second period; Betty Mathewson, third; Evelyn Paulson, noon and fourth; Doris Becker, fifth; and Paul Wright, sixth.

Ellen Anderson helps mending and binding magazines during the third period.

MANUAL ARTS SHOWS PROGRESS

Boats, airplanes, houses and many other things are being drawn in the third hour Manual Arts class which Mr. Still is teaching. He told the class that each person should draw what he was interested in--if he didn't have anything special, an assignment would be given him.

In about a month the class should have plans drawn and material on hand for shopwork.

"Did you ever attend a school for stuttering?"

"N-n-no, I j-j-just p-p-picked it up."

Twenty-eight to thirty are probably the best ten years of a woman's life.

STUDENT COUNCIL WILL
AGAIN MEET

The Student Council, this year, will be under the direction of Mr. Robinson, as Miss Wiley will be in charge of the Girl's Club. It will consist of home-room presidents, student body secretary and president, and the head of the traffic squad. They meet for the purpose of discussing problems concerning the school, once a week in Room 108. However, it will not begin until after the student body officers are elected.

All student parties and activities will be scheduled by the Council.

MANY NEW STUDENTS ENROLL

The Junior High School boasts many new students this year. They came from four different states to go to school here.

The new-comers are: Walter Anderson from Barnum, Minnesota; Alan Davies from Aberdeen; Betty Mayer from John Marshall Junior High in Seattle; Jane Foxley from Washington Junior High in Yakima; John Rickers from Colville; Michael Hoffman from St. Joseph's School in Seattle; Elsie Peterson and James Kane from New York City; Jean and Georgia Krieter from Free Water, Oregon; Antonio Jumper from Centralia; Robert Hanson of Aberdeen; Carol Miller from Bothell; Doris and Clyde Andraska from Kent; Barrett Corfman from Alexander Hamilton; Phyllis Latimer from James Madison Junior High in Seattle; Rosemary Mulloy from Dunlap School; Leon Bennett, from Warren Avenue School; Beth Corfman of Latona School; Benny Young of E. C. Hughes School, and David Osborne of Summit School.

We welcome these students to our school and we hope they may profit going to school here, and that we may also benefit by all of the students putting their best into these years in the Klamath Junior High School.

IN SYMPATHY

Students and faculty express sympathy to Mr. Atterberry because of the recent death of his father.

During Mr. Atterberry's absence from school, Mrs. Frathaim took charge of his classes.

MY TRIP TO MONTANA

My father, mother, sister, and I left Kirkland about six o'clock Sunday morning on the 13, reaching Spokane about five o'clock last night. Monday morning we planned to reach Banff National Park, Canada. The Rocky Mountains was one of the prettiest sights I have seen. We stayed at the Radium Hot Springs Monday night, where they had a pool which was the temperature of 90 degrees.

In Banff National Park we saw Mountain goats and deer, but we didn't get to see any more. From Banff we went into Calgary. It is a much bigger city than I had expected it to be.

I think that Glacier National Park is the most interesting sight. The mountains are all different colors and the lakes of a deep blue. Thursday morning we left our camping grounds on Lake McDonald and took a trail up to the summit which was about eight thousand feet high. All along the way there were snowbanks. It just happened that we had to stop by one of them. All of us, that is my sister and I, got out with some pillows and got on top of the snowbank and were sliding down them backward or sideways just so we got down to the bottom.

We spent about five hours at the summit and then went back down to the camp. As we rove in the camp we wondered why our dishes were all on the ground. We looked around and here was a little bear running away just as fast as it could.

Elaine Howland

INTERVIEWING OUR NEW OFFICE GIRL

Luella Erlandson, our new office girl, is replacing Maret Josten, now working at the Puget Sound Power & Light Company. Miss Erlandson was graduated from the Kirkland High School in 1936 and spent her three months' vacation at Wilson's Business College in Seattle. Her favorite activities are dancing, football games, and reading.

The pupils and faculty welcome her and hope she has a pleasant year.

NUMBERS TO BE PLAYED FOR
P.T.A. PROGRAM

Colin Sextet- Play Song of the Meadow and At Pierrot's Door.

Helena McKibben, Betty Jane Loveless, Harry Oskam, Elizabeth Wilsie, Dick Oskam, Glen Watson.

Girls' Glee Club - Slumber Boat.

MORE ABOUT THE SEVENTH GRADE

(Con't. from Page 3)

The Seven A boys showed fine spirit and organization out in the field, practicing football, getting in shape to whip the 7B's. And on their own, too! Hat's off!

Leonard Howard of the 8A class, has been exhibiting as fine a specimen of a black eye as could be found. Someone said, "Leonard, how did you get that shiner?" "I was looking through a key-hole and someone opened the door." And that was the truth!

The Seven B Mathematics class had completed the first unit of construction work and show some very excellent designs. They have kept a notebook of their drawings.

Contributed by Mrs. Williams

HOME ROOM OFFICERS ELECTED
(con't. from page 1)

- 9C- President- Dick Fritts
Secretary- Evelyn Paulson
Cheer Leaders- Rose Marie Evans
- 8A- President- Mildred Maack
Secretary- Julia Wiggins
- 8B- President- Larry Wold
Secretary- June Murray
- 7A- President- Billy Esemper
Secretary- Donald Lundvall
- 7B- President- Billy Helsell
Secretary- Dick Amundsen
- 7C- President- Hiroshi Baba
Secretary- John Cross.

8C News

The 8C's instead of the usual election of president, vice-president, and secretary, we just nominated them in the position having two parties run. The parties are the:

	<u>Aristocrats</u>	<u>Plutocrats</u>
Pres.	Don Hand Jacquet Waymire	Lorna Brennan Lorraine VanAalst
V.Pres.	Emilie Perron Leon Bishop Joyce Clink	Jim Kane Junior Skagerberg Norman Durocher
Sec. & Treas.	Virginia Hogsett Donald DeMerritt Jack Powers	John Bidleman Kathryn Fisher

The Primary Election will take place next Friday, October 2, the real election taking place October 7.

PIGSKIN CONTEST BEGINS

The football season got under way Monday with the 9A's beating the 8A's 17 to 0. Tuesday the 7A's tied the 7C's, neither team scoring. Wednesday the 9B's won from the 9C's by the small score of 6 to 0.

Each team is to play five games. The schedule is in charge of Mr. Atterberry. Mr. Mitchell forecasts the teams to finish as follows: 9C, 9B, 9A and 8B. The 9C's certainly hope he is right.

MR. BENNEST PLANS TO ORGANIZE ORCHESTRA

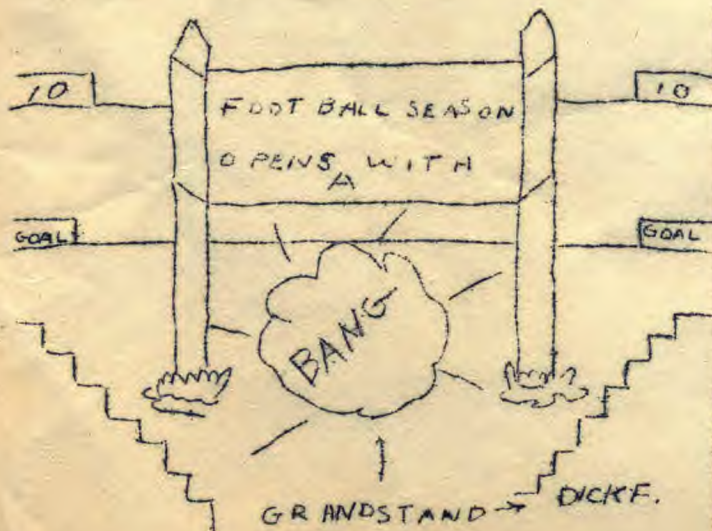

Mr. Bennest, the new music teacher at the Kirkland High School, taught music at Colfax, Washington, last year. He plans to organize a band and orchestra, also an instrument class. The instruments most needed are the bass strings.

When asked if he had any favorite instrument he declared, "I like them all." He likes to play golf in his spare time.

Did you know that Michael Hoffman's brother "Nurdy" was an All American football star on Notre Dame's famous football team under Knute Rockne?

BUCOLIC BUICK

The balky mule has four-wheel brakes,
The billy goat has bumpers;
The firefly has a bright spot-light,
Rabbits are puddle jumpers.
Camels have balloon-tired feet,
And carry spares of what they eat;
But the thing that I think can't be beat
Is the Kangaroo with its rumble seat.

INTRODUCING THE NEW FACULTY MEMBERS

The newest member to be added to the faculty who will teach ninth grade Home Economics, so that Miss Schonborn will have more time in the Senior High, is Mrs. Sperry. Her program will be sewing the first semester, and cooking the last.

Mrs. Sperry spent her summer at Camp North Fork on the Stilliquemish River. Golf is her favorite sport, and she just loves souffle with creamed chicken. Mrs. Sperry told the inquiring reporter, "I think this school has a fine class of girls."

NEW TEACHER ENJOYS WORK HERE

"Kirkland is the best situation I have had," declared Douglas Hendel, the new English teacher at the Junior High school. "Most teachers come to a new position by chance, but I came here by choice."

"The new building, in good condition, is in contrast with the other places I taught," Mr. Hendel said. "I find the students polite, cheerful, and cooperative. The teachers are helpful and congenial, and the school is well organized."

"In my work I prefer teaching English. I like all sports and enjoy dramatics and symphonic music. My hobbies are reading and block printing," he stated.

A native of Colorado, Mr. Hendel has taught in Stadium high school in Tacoma and at Maple Falls in Whatcomb county.

Mr. Hendel and family have moved into Mr. Van Devanter's former residence.
