BEGINNING OF THE YEAR.

By the reformation of the calendar by Gregory, the year began on the first of January, and, consequently, whenever and wherever the new style of reckoning time was adopted, then and there the year commenced on this day.

Previous to the use of the Gregorian calendar, the years had different days of beginning at various times in the same and different countries, and occasionally at the same time in the same country.

In most countries it began on one of the following days :

- Christmas-day, the 25th of December ;
- Circumcision-day, the 1st of January ;
- Lady-day, the 25th of March ;
- Easter-day, the day of the Resurrection of our Lord.

In England, in the seventh, and so late as the thirteenth century, the year began on Christmas-day ; but, in the twelfth century, the Anglican Church commenced the year on the 25th of March, as did also the civilians of the fourteenth century. This continued until 1752, the time of adoption of the new style. By this it appears that two modes of reckoning the commencement of the year have generally existed in Great Britain and its colonies, causing what are called the CIVIL, ECCLESIASTICAL, or LEGAL YEAR, and the HISTORICAL YEAR. The last named of these has commenced on the 1st of January for a long period of time.

A VALUABLE TABLE.

A box twenty-four inches by sixteen inches square, and twenty-eight inches deep, will contain a barrel.—A box twenty-six by fifteen and a half inches square, and eight inches deep, will contain a bushel.—A box twelve inches by eleven and a half inches square, and nine inches deep, will contain a half bushel.—A box eight by eight inches square, and eight inches deep, will contain a peck.—A box eight by eight inches square, and four and one-eighth inches deep, will contain one gallon.—A box seven by eight inches square, and four and one-eighth inches deep, will contain a half gallon.—A box four inches by four inches square, and four and one-fourth inches deep, will contain a pint.

DIVISIONS OF TIME.

A SOLAR DAY is measured by the rotation of the earth upon its axis, and is of different lengths, owing to the ellipticity of the earth's orbit and other causes ; but a mean solar day, recorded by the time-piece, is twenty-four hours long.

AN ASTRONOMICAL DAY commences at noon, and is counted from the first to the twenty-fourth hour. A CIVIL DAY commences at midnight, and is counted from the first to the twelfth hour, when it is recounted again from the first to the twelfth hour. A NAUTICAL DAY is counted as a Civil Day, but commences, like an Astronomical Day, from noon.

A CALENDAR MONTH varies in length from 28 to 31 days. A MEAN LUNAR MONTH is 29 days, 12 hours, 44 minutes, 2 seconds, and 5.24 thirds.

A YEAR is divided into 365 days.

A SOLAR YEAR, which is the time occupied by the Sun in passing from one Vernal Equinox to another, consists of 365.24244 solar days, or 365 days, 5 hours, 48 minutes, and 49.536 seconds.

A JULIAN YEAR is 365 days. A GREGORIAN YEAR is 365.2425 days. Every fourth year is BISSEXTILE, or LEAP YEAR, and is 366 days. The error of the Gregorian computation amounts only to one day in 3571.4286 years.

TO ASCERTAIN THE LENGTH OF THE DAY AND NIGHT.

At any time of the year add 12 hours to the time of the sun's setting, and from the sum subtract the time of rising for the length of the day. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning for the length of the night. These rules are equally true for apparent time.

IMPORTANT EPOCHS AND ERAS.

Destruction of Troy.....	June, B. C. 1184.
Building of Solomon's Temple.....	May, B. C. 1015.
Roman Era.....	April 24, B. C. 753.
Christian Era.....	January 1, A. D. 1; A. M. 4004.
Destruction of Jerusalem.....	September 21, A. D. 69.
Conquest of England.....	October 14, A. D. 1066.
Declaration of American Independence.....	July 4, A. D. 1776.

A COMPLETE

Table of Stamp Duties

AS APPROVED MARCH 26, 1867.

UNITED STATES STAMP DUTIES.

AGREEMENT, or CONTRACT, not otherwise specified; any appraisement of value or damage, or for other purpose; for each agreement, or for each sheet of each agreement, etc., or renewal of same.	\$0.05

CIGAR LIGHTS, made in part of wood, wax, glass, paper, or other materials, in packages containing twenty-five lights or less, each package...	.01
Every additional twenty-five lights or part thereof, 1 cent more.	
PLAYING CARDS, for and upon every pack, not exceeding fifty-two cards in number, irrespective of price or value.....	.05

The indiscriminate use of all kinds of stamps (except postage or proprietary) is permitted, care being taken to affix a stamp or stamps of the proper amount.

Documents made in any foreign country, to be used in the United States, shall pay the same duty as when made here.

Powers of Attorney, or other papers relating to applications for bounties, arrearages of pay, or pensions, require no stamp; neither do indorsement of negotiable instrument, nor any warrant of attorney accompanying a bond or note, when such bond or note shall be stamped; and whenever any bond or note shall be secured by mortgage, but one stamp duty is required, provided the stamp duty placed thereon is the highest rate required for said instrument, or either of them.

The person using or affixing the stamp or stamps, shall write thereupon the initials of his name and the date upon which the same shall be attached or used, so that the same shall not be used again, under a penalty of \$50; or they may be otherwise canceled as the Commissioner of Internal Revenue may prescribe.

Violations of these Stamp Duties will be punished as the law directs.

ECLIPSES IN THE YEAR 1871.

In the year 1871, there will be four Eclipses; two of the SUN, and two of the MOON.

I.—A PARTIAL ECLIPSE OF THE MOON, January 6th, partly visible as follows:

PHASES.	BOSTON.	NEW YORK.	CHICAGO.
Middle of Eclipse....	4h. 32m. A.	4h. 20m. A.	Invisible.
Moon leaves Shadow.	6h. 2m. A.	5h. 50m. A.	4h. 56m. A.
Moon leaves Penumb.	7h. 21m. A.	7h. 9m. A.	6h. 15m. A.

Visible, more or less, to the world generally, except to the western slope of North America.

II.—AN ANNULAR ECLIPSE OF THE SUN, June 17th, invisible to North America. Visible to Australia and adjacent oceans.

III.—A PARTIAL ECLIPSE OF THE MOON, July 2d; invisible. Visible, more or less, to Asia, Australia, Eastern Africa, and extreme western North America.

IV.—A TOTAL ECLIPSE OF THE SUN, December 11th; invisible to North America. Visible to Australia and India.

MORNING AND EVENING STARS.

VENUS will be Evening Star until September 26th; then Morning Star the rest of the year.

JUPITER will be Evening Star until June 30th; then Morning Star the rest of the year.

FASTS AND FEASTS OF THE CHURCH.

LETTERS TO GREAT BRITAIN OR IRELAND, 6 cents. Prepayment optional.

LETTERS TO FRANCE. Prepayment optional.

LETTERS TO OTHER FOREIGN COUNTRIES vary in rate according to the route by which they are sent, and the proper information can be obtained of any Postmaster in the United States.

MONEY ORDERS.

MONEY ORDER POST OFFICES are established in most of the large cities and towns, at which orders can be obtained upon any other office, at the following rates of commission:

On orders not exceeding \$20.....	10 cents.
Over \$20 and not exceeding \$30.....	15 "
Over \$30 " " \$40.....	20 "
Over \$40 " " \$50.....	25 "

No single order issued for less than one dollar nor more than fifty dollars. Parties desiring to remit larger sums must obtain additional money orders.

SUNDAY, JANUARY 1, 1871.

Rather windy, but
not very cold.

Father and Mother
got back from
Burlington this P.M.

We all have comman-
ced another year
to day. I hope that
it will be our
lot to leave it
as happily as we
commenced it, and
to strive, to improve
the passing hours.

MONDAY, JANUARY 2, 1871.

Has snowed some
to day; It is clear
this eve. I have
thrashed the beans
to day.
