SKETCH of LARGE PAVER (Approx. 11.75-in. Square)

* Paver is made from Wilkeson Stone quarried in Washington. This is the same material used to build the Washington State Capitol Dome in Olympia.

Pavers are ordered from the manufacturer on October 1 of each year. Orders received after October 1 will be held until the following year.

All pavers become the property of the Kirkland Heritage Society and will be installed on the grounds of the Kirkland Heritage Center in Kirkland. Proceeds will go to improvements at the Kirkland Heritage Center and ongoing activities of the Kirkland Heritage Society.
