Memorial Day Days Past and Present

"That was the year that was," is the theme of this year's Memorial Day Assembly to be presented by the Honor Society today. The assembly is given in commemoration of Washington's Birthday.

Through the years the Memorial Day Assembly has reflected on the events and activities of the past school year. Today will be no exception. Past events will be portrayed through the use of present day TV programs. Honor Society will present skits and displays.

Seniors will plant the traditional cherry tree, a custom followed by the graduating class for many years. "Cherry tree lane" is on the lower north terrace near the entrance to the school.

Highlighting the assembly is the selection of George and Martha Washington. Chosen for their interest and service to the school, George and Martha will be presented to the student body during the assembly.

Selection of George and Martha is done completely by the senior class. Each senior girl and boy selected three girls and three boys whom he would like. From the top ten of these, the senior class then voted and the results will be disclosed today.

Finalists included: Jeannie Beebe, Janet Hammond, Nancy Jacobson, Sue Leatha, Karen Magnuson, Sue Price, Margie Sharp, Janet Soderstrom, Jamie Taylor, and Kitty Wright.

discontent comes from idle hands

By Bill Knoedlik

Lake Washington is shot. Lake Washington is run by cliques. Student Council is reviled. This school is a dump, School has had the program. These complaints are made daily by more and more students. Complaints - against teachers, administrators, elected officers, school curriculum and everything in general - only breed discontent. They are made by people who claim to see the problem, but who are unwilling to work for solutions. It is up to the complainers to decide if the problems will be solved. But before you can do this, here are a few things that you should honestly consider.

1. Define the terms of your complaint. The place is shot, a dump, ruined or going to the dogs tells us very little. You can't solve a generality: a specific problem at least has possibilities.

2. Determine if this is a legitimate gripe. "Teachers tell me what to do without regard to my inalienable rights of life, liberty and the pursuit of happiness" is not being fair to yourself. Besides defining our terms, we must appreciate our position as students and the teachers' as instructors.

3. Decide what is wrong. The real problem usually hasn't begun. We can't expect school to solve our own problems.

4. Determine why the situation exists. If you feel that there is a lack of spirit, might it come from your own persistent ranking of school officers, activities, and organizations?

the withered laurels

Once upon a time there was an old and clever king who knew Shakespeare by heart and could do several demi-tricks. Many, many years ago this king trained a group of knights. Anyway, these knights almost won an all-kingdom jousting contest, and the king was a hero and everyone was very pleased with him. It came to pass later that the king's knights did miserably in jousting and failed to bring any recognition to the kingdom. The older people around the castle remembered the former glories and kept faith with the king. However, one does not ride on his laurels forever, and soon interest in jousting came to turn to other sports such as "grappling" where men of action come high. If your complaint has passed all the preliminary tests, then it is time for the pick and shovel work. If you, the originator of the idea, won't work for its completion, who are so blandly smirked at by egg-faced pseudo-intellectual philosophers.

Any "cream faced loon" can cry from behind his shoulder that something is a farce, but work will change your tune. No longer will you go around saying that your Student Body officers are all just a bunch of socialites, because they are too busy working for you. Take a new look at the status quo. Arise, complainers, you have nothing to lose but your smirk and the egg on your face.

5. Determine a solution or if one is possible. This is the most important part of this whole program. If you can suggest a better way of handling a situation, then you are going to be of some value. If you cannot, then quit complaining.

6. Decide if your solution is practical. If you feel that Student Council is not democratic, would your solution solve the problem while taking no more time and money allotted?

If you are going to be honest you must consider these things before you leap. Then, you can go to work. Remember, self-made philosophers are cheap men of action come high. MR. JAKE RUFER seems to have made it over the first hurdle as far as his future career in politics is concerned. Now nothing but votes stands between Mr. Ruder and the majority of Houghton. May the best man win. Well . . . .

While we're on the subject of faculty members we understand that MRS. CLAUDELLE PAZER and MRS. CAROLYN GORDON are on the wounded list. Mrs. Pazer stubbed her toe and chipped the bone and Mrs. Gordon, on a skiing escapade, sprained her ankle. Take it easy girls!!!

Counselors Chuckle . . . . A junior boy with plans of becoming a P.E. major in college requested a change in his schedule . . . He asked if he could drop P.E. in order to take another course (so specific one in mind), simply because he didn't feel like taking P.E. this semester.

In order to give the play the desired effect it will be played in the center of the Cadle Theatre instead of on the stage, where part of the audience will be seated. Although giving a play in the "round" of a theatre is not a new idea, it is new for the school. The play is also an experiment because it is a contemporary play done in poetic language.

Another innovation by the director, Mr. Milton Fotakis, is the featuring of both Chris Photakis and Carla Marcello as Miriamme, the leading female role. The girls will be featured on separate nights.

Teachers Judge Two Hour Tests

Mr. Norm Bottenberg is now heading a committee to re-evaluate the present examination schedule. A questionnaire is being sent to each of the teachers.

"Do you think your students needed the two hours for tests?" and "Do you like the present examination schedule?" are two of the questions being asked. One suggestion for the present problem is to allow the students who have permission to go home.

Committee members include the head of each academic department.
