Reynolds Scores Highest In Homemaker Contest

"The test gives a girl an awareness of the preparation she needs to become a good homemaker." was the comment of Barbara Reynolds, senior, who won a school-wide Homemaker of the Month award. The test was given December 1.

Seventeen senior girls took the test, which was voluntary, objective type, with one essay question. The essay included such topics as raising children, nutrition and building a house. Other subjects covered in the 50 minute test were flooring, fire insurance, cooking and investments. By winning on this level, Barbara has the chance to compete with other high school winners throughout the state. The state winners receive $5,000 a scholarship.

Examples of the work going to the Scholastic Art Competition are pictured here.

Money-making Projects To Bolster A.S.B. Funds

Because the Student Body Fund fell $350 short in the A.S.B. card sales last year, Student Council is now planning several money making projects for this year.

Definitely planned is an after game dance on February 5, following the Issaquah basketball game. Live music will be provided by the Commandos. Profits, successful or more, will now be turned over to the student center.

Indefinite plans include a student-faculty basketball game and an evening talent show. Other student-faculty games of different types have also been discussed.

Student Council appointed a fund-raising committee at the Thursday, January 26, meeting.

Chosen to head the committee was Doug McLaughlin, senior. Sam Jackson, junior and Tonnie Oosterwyck, sophomore, will also serve on the committee.

These three will work in cooperation with the administration and faculty advisor, Mr. Nelson, to make this venture successful.

Plans are being stepped up now because during the basketball, wrestling and track seasons the deficit will probably increase unless more profit making ventures are found.

Doug is presently conferring with a Vancouver Student Body fund raising chairman to learn of more project ideas.

Artistic Students Prepare For Scholastic Competition

Examples of the work going to the Scholastic Art Competition are pictured here. Photo by Brian Howe

The judges of this year's competition will be nationally known artists. The contest is open to all students, and hundreds of works will be on display. Various students will be awarded prizes ranging from gold keys to actual school scholarships.

Writing Awards

Courses are being offered in creative writing. Some of the requirements for these courses include the writing of several short stories and one or two poems. Each high school in the greater Kirkland area is eligible to enter students for these contests. Prizes include cash awards and scholarships.

Cultural Events

The Kirkland Chamber of Commerce is also planning events to be held for the purpose of expanding cultural horizons in the community. The events are designed to attract people who are interested in the arts and would like the opportunity to learn more about various aspects of them. The chamber is working with local organizations and artists to put on events such as concerts, art exhibitions, and other cultural activities that will appeal to a wide range of interests.

**Smith Beats Drama**

**Editor, the WORLD:** Paul, in your last state of drama at Lake Washington is useful in reminding us that our drama production has included outstanding serious drama. Recently a number of students have produced Twelve Angry Jurors, Our Town, Diary of Anne, and the like. We would still be trying to get through today of the next semester all will be well, but the students here are half a dozen Loyalty girls trying to be, half the pep staff, and, worst of all, our drama. What other high school in our area claims a higher record of drama over the past five years? The list reads like a Who's Who in Lake Washington. If you can choose to defend Mr. Scott's decision against Paul's claim that the drama has been overemphasized, arguments could be found. They might be based upon the number of majors played at the Seattle Repertory Theater and the audience response to the Lake Washington dramatic presentations (including Lonesome River) to support Mr. Scott's contention that the best drama is in tragic echo. But it is always nice to use this space to discuss this issue.

Instead, I shall try to place the discussion in a different light, one that I hope will be more to Paul's liking. Being a close friend of Mr. Scott's, I have known for some time that he plans to study drama further at the University of Washington graduate school next year. There is no reason why any of us must try to find someone to fill his place here, knowing that there is a vacancy next year.

Someone will be found to produce productions next year, of course. And be or she will find a happy place to develop her talent and the students and faculty helping him— a heritage of the previous five or six years. I believe in it this heritage that we should remember that the drama production is all-school production of All the Way Home.

Contrary to what Paul implies, no two tragedies have the same effect on their audiences. The student's and faculty helping him— a heritage of the previous five or six years. I believe in it this heritage that we should remember that the drama production is all-school production of All the Way Home.

**Hulet again!**

One of the biggest changes that an American student would find when entering Japanese schools are the sports programs. There are no inter-city athletic competitions below the college level. Occasion­ally two schools will play a soccer, or tennis or basketball, but this is not the usual case. There is much more emphasis on sports for both boys and girls. The principal intramural sports are baseball, basketball, and hockey. The Japanese are the best in the world at tennis, baseball, and hockey. It would be amusing! I didn't realize that we should emphasize our appreci­ation for the other country's culture. I'll bet that they are amazed when they see us. I bet that they are amazed when they see us.

Although the sophomore girls have problems with romance from you, the boys have it even worse. Girls are always complaining that the boys are too short, too tall, too fat, and so on. I don't know how to explain this. The quality of Japanese baseball is rapidly improving and their American basketball is excellent. We also have our Pacific Coast League. Bas­ketball is the only sport that is improving here, but the lack of tall players hurts the Japanese international reputation.

The other most noticable dif­ference is the absence of dating. Dating below the age of 20 or 21 is still virtu­ally unknown in Japan. Japanese college students are being told that they are not ready for this at the college level. In Japan, the only exception is the national team. For the remainder of college, the Japanese teenager is tradi­tionally far less socially sensitive.

"Going steady was very rare," said Vice Principal William McLaughlin about the days when he was at Kirkland High. Has high school changed over the years? Not long ago Miss Karla Terrell and Mr. Vic Ferguson attended Lake Washington, and Mr. Jack Spencer and Mr. McLaughlin attended Kirkland High. In comparison, student activity with previous years, they commented on the differences.

"Only two or three students drove to school," said Mr. McLaughlin about the class of '36. Student life centered around plays and athletics, and the school was almost a family.

The track team placed in the state meet for the first time that year. There were 80 graduating seniors and their class president was a girl.

Mr. Spencer graduated with "one of the biggest classmen yet. That was in 1940, when there were 98 seniors. Students were less clothes conscious then, and there were fewer clubs. Loyally exist, however. In fact, Mr. Spencer's wife was a member."

"No one ever thought of ducking out of assemblies," added Mr. Spencer. He also remarked that in 1938, '39 and '40 the Kirkland High School football field was considered the finest on the East Side.

When Miss Terrell and Mr. Ferguson attended Lake Washington High School in 1955, the south wing, music rooms and Cafle Theatre were non-existent. "Boys were more active in school affairs," said Mr. Ferguson, "and there was less class competition."

"There was tremendous school spirit," remarked Miss Terrell, "the boys came out to games."

"Going steady was popular in 1955, and the long graduated style, pinUp and D.A. were the latest girls' hair styles. The avalanche and bob were danced at school dances which highlighted the year.

But not for a moment would I desert a floundering soul in its hour of need. We are never mentioned in the head­li­nes or even the story.

These people are managers, tic­ker sellers and concession stand attendants. They are light techni­cians, publicity committeemen and stage crews.

Too often these people are just taken for granted, yet in the words of Mr. Jim Johnson, football coach, "They are every bit as important as the coaches or players; we need them."

By Monica

ATTENTION! Fellow columnists and discerning scholars... Your undivided attention and deepest understanding is required since a rather revolting predicament has come up. After racking my rather pitiful supply of wit for several days, it is evident that I am not going to have a sudden flash of inspiration. So, I will do what any defensive would do... give up!

I know this is rather disturbing news since people have come to look to this column for enlightenment and guidance. But I fail in my steadfast duty to restrain from filling this space with rubbish that has no purpose. The words "Out on a Limb" have become synonymous with wisdom, in­advised shaving his flourishing beard so there wasn't such a strong

But there was something lack­ful in her pocket. I boosted her morale and now she is zeroing in on an unsuspecting senior boy.

I blew his nose for him, told him he was a wonderful editor (note: he has a persecution complex and thinks people are cruel and unfair. Well, fans and scholars the space has been filled after all but there was something lack­ful in her pocket. I boosted her morale and now she is zeroing in on an unsuspecting senior boy.

I feel compelled to answer an urgent plea from a yell queen as to what it could be that caused people to avoid him. I

Junior Girl
To Be Page

What's this? Marty Rusch helping himself to a handful of pop­corn? Maybe the job of concession­stand manager isn't all work.

Ten dollars per day the salary administered to pages for passing out bills and messages to com­mittee rooms. The experiences gained from this opportunity are well worth the time and effort put into the job.

Leslie was accepted for the job after having turned in an ap­plication to James A. Anderson, Republican Representative from the 46th District.

By Laurie Matttingly

"John Jones Throws Touchdown Pass To Win The Game"... "Jane Smith Stars In All School Play"... "Wreather a Win­ning Co­mpetition"... all the headline are typical of the headline seen in the school or local paper week after week.

Yet has anyone stopped to notice the people behind the scenes who make this football game, wrestling match and play possible and yet are never mentioned in the head­lines or even the story.

These people are managers, tic­ker sellers and concession stand attendants. They are light techni­cians, publicity committeemen and stage crews.

Too often these people are just taken for granted, yet in the words of Mr. Jim Johnson, football coach, "They are every bit as important as the coaches or players; we need them."

But again it may be! Marty seems hard at it during half-time at one of the games,
Intramural Swimming, Basketball Progresses

Swimming is nearing completion and basketball started January 20 in the intramural program. Thirteen boys are presently participating in the intramural swimming sessions. There will be ten sessions, six now completed, which are being held with the G.A.A. at the Gold Creek pool on Tuesdays and Thursdays.

In the first session the swimmers were placed in three different groups according to their ability and given instruction. In some of the later sessions the entire hour was devoted to polishing games with the boys against the girls. Roy-girl teams will be formed for relay races.

Because only thirteen boys turned out for intramural swimming, it was decided there would be no competition and points would only be given for participating. Points are usually awarded to the top four boys in every sport during the year besides those given for participating.

Ten basketball teams have been organized, including faculty team. The tournament which began last week is a double round robin with each team playing at least twice. The games are tentatively scheduled on Mondays, Wednesdays and Fridays from 2:00 to 3:00. The "Killer" captains, by Larry Nelson, were champs last year and are defending their title this year.

Wrestlers Rough Up Redmond, Stomp Totems for 4-2 Record

With a 32-13 victory over Sammamish Friday, January 15, the Kangaroo grapplers now possess a 5-2 league record. So far this season, the "Roos have compiled victories over Mercer Island, Newport and Sammamish while losing to Bellevue and Federal Way. In non-league action the Kangs have a 1-1 record with a victory over Wenatchee and a loss to Shoreline.

Head grappling mentor, Mr. Jim Musser, feels his wrestlers have been hot and cold throughout the season. But that they now have student support and more focus on the art of wrestling. A better understanding of a wrestling match would make it more enjoyable for the spectators.

A board with the pictures of all the wrestlers, was put up in the student center by Coach Musser, so that students could familiarize themselves with the squad.

Make yourself indispensable, and you will move up. Act as though you are indispensable and you will move on.

Jules Ormson

J.V. Slaughters Mustangs, Tomahawks Sammamish

Batting for the league lead is the Kang J.V. basketball team, with a 7-1 league record through January 26. Coming back after their only loss, 40-43 to Bellevue, the squad thumped a strong Sammamish team 51-33 and stomped Redmond 70-25.

Poor playing in the first quarter and several bad breaks near the end of the game cited by Coach Vic Ferguson as the basic reasons for the loss to Bellevue.

Defensive drills before the Sammamish game seemed to steady the players and prepare them well for the game. Mr. Ferguson cited the first quarter scores, 16-9.

Leading scoring averages so far are: Steve Elves, 15.2; Steve Daily, 9.75; Jim Howard, 6.4; Roger Miller, 5.9; Steve Stonefeld, 5.25.

Tomorrow begins the first game of the second round of league play and the Kangaroos will play Federal Way, January 29. In the first meeting of the two teams, the J.V. squad won 46-45 in a come-from-behind victory.
Kangs Hop Over Mustangs, Look Toward Flying Eagles

Bouncing back from the previous week's loss to front-running Sammamish, the Kangaroos hooper defeated Redmond, 58-36, Friday, January 29, Tuesday night the Kang round-up the J.V. Mustangs in the gym of the recently dedicated Redmond High School.

The Kangs won over Redmond by a 15 point margin. Photo by Brian Howe

The Kangs scorers, by scoring 12 points respectively, were Kirby Spencer, Steve Miller, and 10 points respectively. Coming off the floor and the other for persistent shooting, the Kangs have had full right to second place in the league, and in another match, January 15, the Kangs defeat the Sammamish Totems, 29-18, which brought the season record to 5-3.

Through cleverly played basketball defense, the Kangs defeated Redmond, 58-36, Friday, January 8, and in another match, January 15, the Kangs defeated the Sammamish Totems, 29-18, which brought the season record to 5-3.

Strange as it may seem, the Kangs have had full right to second place in the league and in another match, January 15, the Kangs defeated the Sammamish Totems, 29-18, which brought the season record to 5-3.

In the opening battles of what promises to be a hard fought and traditional rivalry, the Redmond Mustangs came across our paths for the first time in their history last week. Our wrestling teams clashed and so did our basketball teams. Redmond was on the short end in both instances.

People say that Lake Washington will not lose on the top because of the division of the school district. A frequent comment is, "Lake Washington has lost half its new talent to Redmond and in the following year or two it will find itself trailing Redmond and possibly it could happen next year, etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc., etc,

Seabeck Spearkers Challenge Students’ Minds

"I learned so much I haven’t really had time to sort and understand it all yet!"

This is what Julie King
answered when asked about the
Liberal Arts Conference sponsored
by the University of Washington,
January 15-17, on the Seabeck
Conference Center.

The primary purpose of the conference was to bring intellectual
activity, Julie, Bob Back,
Candy Restemayer, Glenn 
and Bill McVey found that
they had to be alert at all times
to derive full benefit from the
lectures and discussions.
The lecture began Friday evening
with a lecture on “The Nature
of Scientific Discovery”, by Professor William Dawson, Research
Instructor of Oceanography at the University.

Other speakers were Lauren
Associate Professor of Philosophy: Wilfrid Davidson, Professor
for Eastern and Slavic Languages; and Lawrence Steefel, Associate
Professor of the School of Art.
All were from the University.

Sunday afternoon, there was a
symposium in which the four
speakers formed a panel and answered questions.

According to Bill McVey, “It’s
difficult to say whether one speaker
was better than another because
they were all so good.”

When asked what she learned as
a result of the conference, Candy
replied, “If I learned any one thing,
it was the challenge of thinking and communicating with
all those thoughtful and brilliant
people.”
