Quick Telephone Service

OVER OUR LONG DISTANCE LINKS

NUMBER SERVICE

Seattle, Medina-Bellevue, Beaux Arts

To use Number Service first obtain correct numbers from the Seattle Directory, call the operator, give her the number and "hold the line". If all Toll Lines are in use the operator will say "I will call you when ready".

Station to Station Service

STATION-TO-STATION service should be used when you will talk to ANYONE answering the telephone called, or when you feel that the person with whom you desire to talk can be promptly called to the telephone by the person answering. The charge for the call begins when anyone answers at the called telephone.

RATES FOR STATION-TO-STATION calls are much cheaper than for other classes, because less labor and use of telephone equipment is required to complete them. For this reason this service is generally more rapid.

STATION-TO-STATION calls placed "collect" will be charged for at the Person-to-Person rate. Therefore, if it is desired to have the called party pay the charges, the Person-to-Person class of service should be used.

REduced STATION-TO-STATION rates known as Evening and Night rates, are in effect between 8:30 P.M. and 4:30 A.M. Evening rates are effective from 8:30 P.M. to Midnight and are about one-half the Day rate. Night rates apply from Midnight to 4:30 A.M. and are about one-fourth the Day rate. When the Day rate is 26c or less the Evening or Night rates will be the same. In applying the Evening and Night rates the time when the connection is established will govern.

If you wish to be advised of the charge on a long distance call, time will be saved if you so notify the operator when you place the call. When you have finished the conversation and have replaced the receiver on the switchhook, the operator will compute the charge and call you back.

Person to Person Service

PERSON-TO-PERSON service should be used when you desire to talk with a specified person and want the operator to locate and inform him of the call. Calls to specified local stations on a Private Branch Exchange come under this classification. The rates for Person-to-Person calls are higher than Station-to-Station calls.

AN APPOINTMENT CALL is made when you desire to talk with a specified person at a designated time. The rate for this service is higher than the Person-to-Person rate.

MESSAGING CALLS—When it is necessary to send a message from one person to another when the person called to the telephone, it is a messenger call. The rate for this class of service is the same as for an appointment call, but the exact amount for the messenger service will be charged in addition. The messenger charge must be guaranteed and must be paid, even if the desired conversation is not held.

Western Union Telegraph

DAY SERVICE, call Northern Pacific R. R. Depot, Kirkland, Main 228; Redmond, Dial 281. AFTER 5 P.M. SERVICE, call OPERATOR, Main 00; Dial 916

Messages may be sent at any time by calling at our KIRKLAND EXCHANGE OFFICE

Put a smile in that message. Use Long Distance!

Quick action by Long Distance! It costs so little.

Ruhl good news to those at home. Use Long Distance!
Our Directories are in use by more than 1100 Subscribers, their families and friends.

Bills For Service

Payments for service are rendered at regular intervals and are due upon presentation. Information regarding bills or an explanation thereof may be obtained from Business Office.
Changes in Directory Listings

In order that the Company may render service at all times it is essential that the Business Office be advised at once of all changes affecting the directory listings.

Very few people can get along without a phone!

For Special Low Night and Sunday Rates call your Operator.

When charges are under thirty cents the initial talking period is five minutes. When the charge is over 30c the initial talking period is three (3) minutes.
HOW TO USE THE DIAL TELEPHONE

First obtain the telephone numbers from the Company's Official Directory. If party's name is not in the directory dial Central Operator (916) and ask to be furnished with the number, then make memorandum of the number for future use.

Second, remove the receiver, being careful not to "jiggle" the hook. If you "jiggle" the hook when removing the receiver or while dialing, it may cause a wrong number.

Third, the Dial Tone is a steady "humming" sound which indicates that the line is ready for you to make a call. Do not start to dial until you have heard the dial tone.

FOR EXAMPLE, TO CALL 911
1. Lift the receiver from the hook and listen for the dial tone.
2. After the dial tone is heard, place your finger firmly in the hole through which the number "9" is seen.
3. Pull the dial around to the right until your finger strikes the finger stop.
4. Remove your finger from the hole and without touching the dial let it return by itself until it stops at the normal position.
5. Proceed in the same way with the numbers "one" "one" in the order named.
6. Keep the receiver off the hook while dialing.

NOTE: If, before you complete dialing, you find that you have made an error, or if your finger slips out of the hole while dialing before you have pulled the dial around to the stop, hang up the receiver for a few seconds. Then take the receiver off, listen for the dial tone, and after hearing it dial all the figures again.

HANG UP RECEIVER WHEN FINISHED
Hang up your receiver when you are through talking. This will disconnect you from the line of the other telephone. If you wish to make successive calls place the receiver on the hook for a few seconds after each call. Do not move the receiver hook or hang up the receiver before you finish talking, as it will break the connection. Do not move the dial while talking as it may break the connection.

BUSY LINE SIGNAL
If the number which you call is busy you will hear a "buzz" - "buzz" - "buzz" in your receiver. In this event hang up receiver and wait a reasonable time before dialing.
Party line subscribers must not attempt to dial should there be other parties talking on the line.

TO CALL SEATTLE NUMBERS
First consult your directory, then dial "916" place the call with the operator and hold the line. For long distance other than out of Seattle dial "916" give the operator the details of the call desired then hang up—she will ring back when the connection is ready.

FOR EXAMPLE, TO CALL ANOTHER PARTY ON YOUR OWN LINE
Numbers with the first two figures the same, are on the same line. To call a subscriber on your own line, first take down your receiver, if line is clear, dial number 01 and then the last figure of the subscribers number and then the last figure of the subscribers number called.

FOR EXAMPLE
If your number is 411 the first two figures are 41 which designate the line number. All other subscribers' numbers the first two figures of which are 41 are on your line. To call a party whose number is 416 first dial 01 then the last figure of your own number which would be 1, then the last figure of the party called which in this case is 6. After dialing the numbers desired, hang receiver on hook, then your bell will start ringing. When the called party answers, your bell will stop ringing, then remove your receiver and talk.

If the called party does not answer you can stop the bells from ringing by removing the receiver from the hook, and then hanging up. Be sure to keep the receiver on the hook when not in use.
